## EIGHT DEAD, 300 INJURED IN SANTIAGO EARTHQUAKE

Important Seaport at Eastern End of Cuba Reports Heavy Property Damage in the Business District — Relief Work Begun.

### SITUATION IN HAND, MAYOR ANNOUNCES

Many Buildings Wrecked — People Stampeded by Wild Rumors but Everything Will Be Normal Again in Few Days.

By the Associated Press.  
SANTIAGO, Cuba, Feb. 3.—Eight persons were killed and 300 injured in a series of nine earth shocks between midnight and dawn today.

Nearly every building in the city was damaged.

Communication with the outside world was still very difficult late today.

The first shock, shortly after 1 o'clock in the morning, affected only the business district, but word spread quickly and threw the city into a panic. Immediately there came a flood of rumors which said 1,500 had been killed and at least as many more injured. These rumors proved unfounded.

Mayor Aznar ordered the gas and electric services shut off to prevent fire and sent word to Havana that the local authorities had been notified of the emergency. Nevertheless, United States Ambassador Guggenheim started from Havana by air. Cuban Government officials also headed for Santiago and relief organizations mobilized facilities.

In quick succession lighter shocks followed the first. The roof of a small maternity hospital collapsed and it was reported that a mother with new-born twins had been killed. The walls of the jail fell, but most of the prisoners escaped. Those who were not hurt went to work with the police and such tools as were available, clearing the debris and standing guard to prevent the looting of wrecked buildings.

The two tall towers of the cathedral were thought to have been cracked and it was feared they might topple into the street.

Help came by air from the United States fleet at nearby Guantanamo and the naval doctors set up emergency dressing stations for the injured.

Apparently the greatest damage was confined to the business section, although there were reports of the town of Cobre, a few miles west, had been severely damaged and that the district of Vina Allende had been affected.

The frightened residents of Santiago packed up enough food to last them for a while and went out into the open country. Stores were closed, train service was interrupted and there was practically no traffic on the streets. But the authorities said things would be back to normal again within a few days.

This city, of about 130,000 population, on the southern coast of the island's eastern end, was destroyed by an earthquake early in the nineteenth century, but was rebuilt and became the largest center in East Cuba.

There was fighting around Santiago in 1898 in the Spanish-American War. San Juan Hill overlooks the city. It was in Santiago harbor that Lieut. Richard Pearson Hobson sank the Merrimac in a heroic but unsuccessful attempt to bottle up the Spanish fleet.

U.S. Consulate Made Unsafe; No Americans Injured.

WASHINGTON, Feb. 3.—The United States Consulate at Santiago was made unsafe by the earth-shaking. The report to the State Department by Edwin Schoen, the consul, gave present-day estimates of damage to property as follows: Swift & Co., \$10,000; Cuba Railroad Hotel Casparrone, \$20,000; F. W. Woolworth, \$10,000. No Americans were injured.

Airplane Pilot Tells of Damage in Santiago Quake.

By the Associated Press.  
Havana, Feb. 3.—R. H. McDonald, pilot for the Cuban Curtis Airways, who left Santiago yesterday about 6 o'clock this morning after driving through the streets of an earthquake, said the first shake threw him out of the window. It looked as though every building had been knocked

WE'VE MADE A LOT OF SACRIFICES TO GET ALONG WITH NEIGHBORS, BUT ASKING US TO LEARN A FOREIGN LANGUAGE IS GOING A STEP TOO FAR.

## SYMPATHY PLEA FAILS TO WIN PAROLE FOR FALL

U. S. Board, Denying Application, Says Corruption in High Places Cannot Be Condoned.

### "GUILT AGGRAVATED BY SEMI-PERJURY"

Former Secretary of Interior Serving Sentence in New Mexico Prison for Accepting \$100,000 Bribe.

By the Associated Press. WASHINGTON, Feb. 2.—The Federal Parole Board last night denied a parole to Albert E. Fall, now serving a year and a day for accepting a \$100,000 bribe when Secretary of the Interior in the Harding Cabinet.

The two men and one woman who compose the board announced their decision with the observation that Fall, 70 years old, should be "unattractive and incompatible with the welfare of society."

Fall, 70 years old, is in the New Mexico State penitentiary at Santa Fe, the first Cabinet member in the history of the nation to be convicted of crime. Allowing time off for good behavior his term will end next May 8, but either a \$100,000 fine must be paid then, he must take a pauper's oath, or he must remain in prison for an extra 30 days. He was the only man convicted in the series of trials to follow the oil lease scandals of the Harding administration. Edward L. Doheny, from whom came to \$100,000 bribe, was acquitted of giving Fall a bribe.

**No Tolerance of Corruption.** "City," said the board, "is advanced as grounds for taking action which would virtually set aside the verdict of the jury. Corruption of public trust in high places, acts akin to treason and affecting the entire nation, cannot be tolerated or condoned. It appears, however, that fact established during several thousand years, and not to be philosophized away, that the fabric of justice cannot endure if mercy is permitted to set aside the penalties meted out in our gravest criminal cases by our highest law tribunals. The case is one of personal guilt, aggravated by semi-perjury in the course of the proceedings leading up to trial and conviction."

While Fall is "physically infirm, largely by reason of chronic disease, but incident to his advancing age," the announcement said, no evidence was presented to show that his condition would be "specifically aggravated by confinement."

"Whether or not others equally guilty have not been punished is beside the issue entirely," the board said.

Fall went to prison last July 18, muttering "damned hours" at the ambulance that carried him over the plain from El Paso, Tex., to Santa Fe. He had been convicted two years earlier, in the District of Columbia Supreme Court.

During his confinement, his case went to the Parole Board shortly before he became eligible, last November 20. Acting after more than two months' investigation, the board said intercessions on his behalf were based "for the most part on sympathy for the applicant's advanced age and alleged physical disabilities," and that the record also contained letters "strongly protesting the granting of pardon or parole."

Fall Spends Much Time Reading; Press Interviews Forbidden.

SANTA FE, N. M., Feb. 2.—Censorship of the New Mexico State penitentiary has kept Fall outside world from learning much of Albert E. Fall since he began serving a sentence for bribe taking.

Close friends of No. 6991 say he spends his waking hours reading and sometimes takes brief walks while hampered by convict attendants.

Because of ill health, Fall has spent his time in a private room of the prison hospital. His first prison nurse, who served from servitude on a murder charge,

Fall scarcely had gone through the prison routine when an order came from Sanford Bates, prison director, in Washington, which stated that he was to be treated as any other prisoner, and expressly forbade newspaper interviews.

Fall arrived at the prison the night of July 20, 1931.

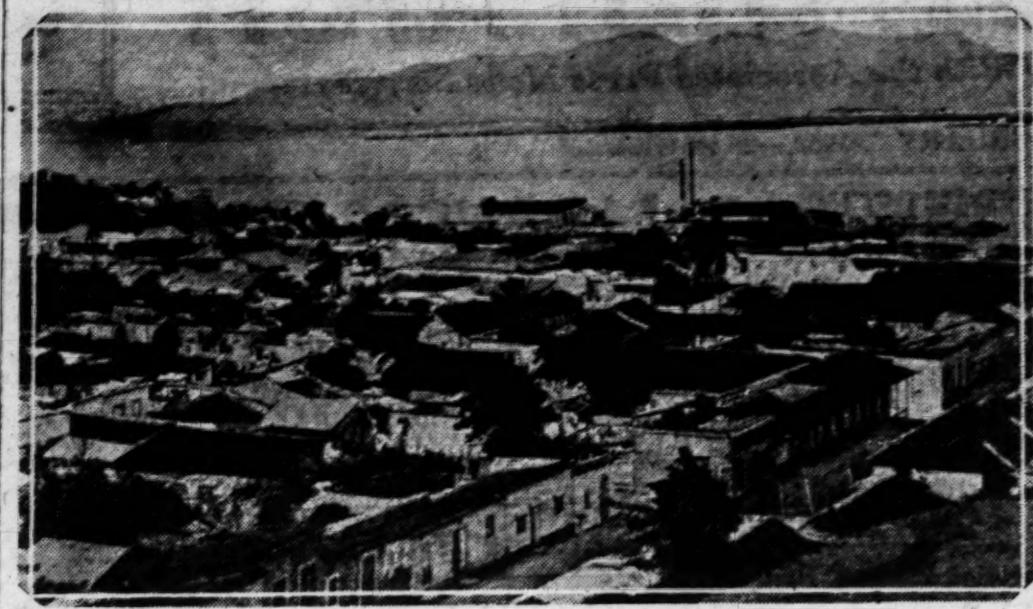

An investigation resulted from charges that Fall was receiving special preference but no account of the Inquiry was not made public.

Fall's family moved to Santa Fe, established residence and awaited his parole. His daughter, Mrs. Jouett Elliott, has been here constantly. Mrs. Fall has been here since he became eligible for parole. Their visits have been restricted to regular prison hours.

Senator Bronson Cutting, former political enemy of Fall, visited the prisoner in November and later appealed to President Hoover to intercede, basing his plea on the ground of Fall's health.

**Hydrometallurgist Dies.** PITTSBURG, Pa., Feb. 2.—Gilbert Alton Bragg, 41 years old, general manager of the Koppers Research Corporation and a recognized authority on hydrometallurgy, died at his home yesterday. He was born in St. Joseph, Mo.

### General View of Cuban City Rocked by Earthquakes

Historic Santiago, at the eastern tip of Cuba, as seen from one of the surrounding hills.

### EIGHT KILLED AND 300 INJURED IN CUBAN EARTHQUAKE

Continued From Page One.

Many persons were hurt but most of the injuries were superficial.

"At the Bacardi Brewery something broke and beer poured into the gutters.

The bell towers of the cathedral were cracked straight across and one of the angels lost its wing. There were crowds outside the building and they seemed to be more upset about the angel than anything else."

**Most Severe Shock Ever Recorded at St. Louis U.**

The earthquake in Santiago was the second at the Department of Geophysics at St. Louis University, beginning at 12:21 a. m., and continuing for 10 seconds.

J. B. MacCleane, seismologist, described the shock as one of the most severe ever recorded here. Two after shocks were recorded at 2:45 o'clock and 6:41 o'clock.

### GERALD TESTIFIES AGAINST BROTHER WHO SHOT FIANCÉ

Continued From Page One.

Her father was in the living room most of the time, the witness said.

The girl gazed steadily at counsel table while she testified. Miss Allen said she went to the lobby of the apartment and waited for Donaldson. She had telephoned him and he came in about five minutes and took her to the Bellevue Stratford. They were joined there by Albert Gallatin H. Lucas, a friend of Donaldson's.

After a brief conversation, she testified, it was decided that Francis and Lucas should go out to the Allen apartment and try to fix things up.

**The Last Time She Saw Him.**

"And that was the last time that I saw Francis alive," she was asked.

"Yes," she replied, amid intense silence in the room.

This concluded the direct examination. Eddie Allen sat immobile while his sister testified. His eyes never wavered from his sister, as she spoke and looked at him. Martin in the witness stand in the way to the witness stand she greeted him with "Hello, Eddie."

In telling of her engagement to Donaldson, Miss Allen said she gave him a diamond pin and that he gave her his barge club pin. She wore it on the witness stand.

**Decided Her Father.**

Miss Allen was called back to the witness stand when the afternoon session of the trial was adjourned.

When she left home the night of the shooting, she said, she told her father she was going to the home of a friend, a Miss Bykes.

"When you told your father you were going to Miss Bykes' house, the fact was that you had arranged to go to the Bellevue Stratford Hotel?" she was asked. "Yes," she replied.

"Your father didn't know where you were?" "No."

"You didn't tell your father that Eddie had told you that Donaldson should not come to your house? You didn't tell your father that Eddie was treating you badly as you claim?" "No."

**Questioned About Statement.**

Miss Allen was questioned regarding a statement she made to the police the day after the shooting. In the statement she said she had been asked to testify to Donaldson, to whom she was asked whether she said anything in the statement about her association with Donaldson, objection came from the defense. Counsel for the defense intimated her testimony was in conflict with certain things in the statement and demanded the right to question her about it. The objection was overruled, and the witness replied that she thought she had mentioned something about their engagement. She could not remember whether she said anything in the police statement about her father going to announce her engagement to Donaldson.

Miss Allen denied her brother had told her that their father had mentioned to Eddie that Donaldson was in her room on a night previous to the shooting and that when the father remonstrated she slapped the father in the face. Pressed on this she said she did not remember.

In reply to other questions Miss Allen said she knew there was ill feeling between her brother and

### SAYS \$50,000,000 GOES FROM U. S. TO RADIO LOTTERIES

Solicitor Donnelly Estimates Postoffice Seized Another \$50,000,000 in 18 Months.

Post-Dispatch Bureau, 201-205 Kellogg Building, WASHINGTON, Feb. 3.—Within the last 18 months Americans have sent \$100,000,000 to foreign lotteries advertised mostly by radio. Solicitor Horace Donnelly of the Postoffice Department announces today. About \$50,000,000 addressed to lotteries, he estimates, has been sent by postal authorities and returned to the senders, but at least another \$50,000,000 of "sucker money" has escaped postal vigilance and reached its destination abroad.

During this time postal agents have played a game of hide and seek with the foreign lottery operators to keep the American radio listeners. The difficulty is, however, that the operators of the lotteries changed almost daily the names of persons to whom the money is to be sent.

4. Establishment of a neutral zone is acceptable and perhaps Japan may accept a permanent agreement that no Chinese troops be allowed within a stipulated distance of Shanghai's International Settlement. Such an agreement would be similar to the Tientsin Boxer Protocol.

5. It is impossible for any country to agree under any circumstances to participation of any third Power in the negotiations with China so far as the Manchurian controversy is concerned.

Today's newspapers, reflecting a general reaction toward the program of the great Powers, assert that the foreign proposals are "encouraging China and discouraging Japan just enough to prolong the trouble."

The newspaper Hochi says the foreign proposals are based on "lecture room theories" and refers to the "unfair interference of Great Britain and the United States."

Other newspapers warn the Powers that it is a mistake to "treat China as though the Manchurian controversy is concerned."

TRYING TO SHAKE  
TESTIMONY THAT  
RUTH JUDD IS SANE

Defense Questions State  
Alienist About Mendel's  
Law and His Own Book  
on Hereditary Insanity.

EXPERT ASSERTS HE  
AGREES IN GENERAL

Admits He Did Not Take  
Into Consideration All  
Facts About Mental De-  
arrangement in Family.

By the Associated Press.  
PHOENIX, Ariz., Feb. 3.—Mendel and his hereditary law were brought into the proceedings today as defense counsel sparred with a prosecution, alienist over whether Mrs. Winnie Ruth Judd was insane. The teachings and axioms of the ancient monk were injected into the murder trial by Attorney Paul Schenck as he sought to break down yesterday's declaration of Dr. Paul E. Bowers, state psychiatrist, that Mrs. Judd was sane on Oct. 16, when it was charged, she killed Miss Agnes Anne Leroy and Miss Hedwig Samuelson.

Leading the Los Angeles psychiatrist through questions of hereditary tendencies in insanity, Schenck produced "Manual of Psychiatry," a book written by Dr. Bowers eight years ago.

Under questioning of Schenck, Dr. Bowers admitted he agreed "generally" with a Mendelian chart of hereditary tendencies set forth in his book.

Admits Part of Heredity.  
"Now," announced Schenck, "we have a chart of the defendant's family tree, which we will establish in almost exact accord with the chart of Mendel."

Recalling testimony of the Rev. Dr. McKinnell, father of Mrs. Judd, that "my father's mother lost her mind—became insane" from worry over disappearance and death of her husband, Schenck demanded: "Did you take into consideration that the great-grandmother of this defendant became insane from worry and shock?"

"No," answered Bowers. "I knew there was some insanity in the family—I didn't know just who."

You knew there was a second cause on the maternal side who died in an insane asylum—with dementia praecox?"

"I heard that in court—I didn't know what kind of insanity he had when I examined the defendant."

Pressed by Schenck, the witness said: "I agree that from 50 to 90 per cent of insanity cases have a history of insanity behind them—heredity has a tremendous effect."

Mrs. Judd made another scene at the end of the session when she jumped against Dr. Bowers as she was being taken to cell. She struck her shoulders against his chest and knocked him to a walk.

Dr. Bowers also testified that questioning of Mrs. Judd that she was in love with J. P. Halloran, wealthy Phoenix lumberman, "and is still infatuated with him." Halloran was identified early in the case as a friend of Mrs. Judd and the two plain women, but issued a statement before the trial opened that he had been "innocent, but perhaps indiscreet." He is under subpoena as a state witness but has not been called.

Dr. Bowers read from notes which he testified were made as he talked with Mrs. Judd on various occasions in her cell.

"I wish," he quoted her as having remarked on one visit, "I could see Jack Halloran."

"I know Mr. Halloran is true to me," Dr. Bowers quoted from his manuscript. "He would help me if he could, but he can't come to me now. They would put him in jail if he came here."

"She said the psychiatrist compelled her to love her husband in a material way—she felt sorry for him—but she felt differently toward Halloran—more romantic. Her husband was hurt when she told him that, and she was sorry."

Dr. Judd Leaves Court.

Dr. William C. Judd, who had spent the day in court sitting by his wife's side, left in the midst of Dr. Bowers' testimony.

Dr. Bowers said he predicated his opinion of Mrs. Judd's sanity on physical, neurological and mental examinations.

Physically, he found her "a slim, undernourished young woman." Neurologically, he was unable to discover any evidence of inco-ordination or impaired reaction, or any evidence of disease of the brain or spine. His mental examination, he asserted, resulted in conversations with her which he declared were not irrational.

Offer Reward for Husband.  
Mrs. Lena Kohr, 6802 Morgan, 10th road, has offered a reward of \$50 through the Police Department for information concerning her husband, George, 56-year-old chauffeur, who disappeared Jan. 1 after threatening to end his life. His automobile was later found abandoned on the Free Bridge.

MISS AASE HENRICK CLAUSEN.

\$128,439 SURPLUS  
FOR ST. LOUIS COUNTY

First Time in Nine Years—  
County Clerk Attributes Con-  
ditions to Economies.

The St. Louis County general revenue and road tax funds have a surplus of \$128,439, as compared with a deficit of \$121,222 at this time last year, County Clerk M. M. announced today. It is the first time in at least nine years that there has been a surplus after outstanding tax warrants of the previous year were paid, Miller said.

The surplus was made possible, according to Miller, by increased tax collections in 1931, reduction of expenditures for road maintenance and various economies ordered by the County Court.

The county will have available in this funds this year about \$1,828,649, an estimate based on the surplus plus the estimated revenue for 1932. The plan of wiping out the deficit by reducing expenditures was inaugurated two years ago by the County Court.

MAN WHO BROKE PAROLE  
27 YEARS AGO NOT WANTED

Pontiac (Ill.) Reformatory Won't  
Seek Return of Former Prisoner  
Held Here.

James F. Cauley, 44, years old, who had been held here for officers of the Pontiac (Ill.) Reformatory for a parole broken in 1905, was released by police yesterday following word from Pontiac that extradition proceedings would not be pressed.

Warden Cranor of the Pontiac reformatory said his office had received instructions from the office of the State Supervisor of Paroles that the attempt to return Cauley that he was dropped because of the long period of time intervening.

Cauley, who lives at 2119 South Seventh boulevard, was arrested here last month on a charge of stealing \$2 worth of clothing property. Police investigating his parole discovered he had been released from the indeterminate sentence in 1905 after serving three years, and was listed as a parole violator.

Cauley was discharged in the Court of Criminal Correction Monday on the recent theft charge. He is quoted by police as admitting he was sentenced to Missouri reformatory a short time after being paroled from the Illinois institution, serving a term on a burglary charge.

STREET LIGHTING BOND ISSUE  
BEATEN IN UNIVERSITY CITY

University City voters defeated a \$500,000 bond issue proposal for a street lighting system in an election yesterday. The vote was 1,225 for and 1,434 against, but the measure failed of the necessary two-thirds majority by 215 votes. It was the first defeat of a municipal bond issue in the history of University City.

The heaviest opposition was in the two precincts in the vicinity of Hanley road, whose residents have been at odds with the city administration recently because of an unpopular street widening ordinance. The vote in these precincts was 668 against and 397 for.

COL. WHITWORTH TRANSFERRED

Col. Pegram Whitworth, commanding officer of Jefferson Barracks for the last three years, has received orders from the War Department detailing him to duty with the General Staff Corps.

He will be stationed at Fort Sam

Houston, Tex., after July 1, as chief of staff of the Second Division.

North Skinner Road Closed.

Skinner road from Delmar boulevard to Olive Street road was closed last night and will remain

closed for two months while a section of the River des Peres is

built under the thoroughfare. W.

W. Horner, City Engineer of Streets

and Sewers, announced today.

TWO MOUNTAIN  
CLIMBERS FOUND  
FROZEN TO DEATH

Searchers Recover Bodies of  
Missing Youths on Mount  
Washington in New  
Hampshire.

By the Associated Press.  
TWIN MOUNTAIN, N. H., Feb. 3.—The bodies of Ernest McAdams of Stoneham, Mass., and Joseph Chadwick of Woburn, Mass., were found by searchers today on Mount Washington, where they fell exhausted Sunday while trying to climb the mountain during a blizzard.

Donald Higgins, 23 years old, of Winchester, Mass., staggered into the base station of the Mount Washington Railroad yesterday, with one hand and his face frozen and told the keepers he had left his two companions, presumably dead, two-thirds of the way up the mountain.

Survivor's Story of Ascent.

Higgins said: "We left home last Saturday and came up here to climb the mountain. We started out at 8 o'clock Sunday morning, although there are several trails.

Although we were several miles from the summit, we chose to walk the railroad trestle all the way. The wind was driving in our faces and the snow was blowing. The temperature was below zero.

"We got almost half way up before we began to weaken. McAdams was the first to be fatigued. We thought we had as much chance to make the top as the bottom, and so we tried to stagger on. Then Chadwick began to tire. I was tired, too. When we came to that part of the trestle two-thirds of the way up we reached a place where the wind almost blew us over. Chadwick and I tried to keep McAdams with us, but he fell and rolled off the trestle. Chadwick and I had to keep the trestle.

Survivor's Story of Ascent.

"A little farther on Chadwick fell. I tried to pull him along but couldn't. We became separated." I knew I was almost half a mile from the summit, so I kept on. I lost one ski. Then the wind blew one of my mittens off. I reached the summit house and stood there. My hand was completely badly frozen, my face, too. That was late Sunday afternoon. I stayed there all night that night and yesterday. By this morning I was well enough to try the descent.

"Coming down this morning I saw McAdams' body. It is under the trestle. I didn't see Chadwick's body at all."

Mount Washington is the highest

peak of the Presidential range in the White Mountains, which reaches the loftiest elevation in Northeastern United States. The summit is 6,233 feet above sea level. In summer it may be reached by an automobile road and by a cog-wheel railway.

In winter, however, the region is a frozen wilderness.

Higgins was taken to Morrison Hospital by Chief of Police Murray Clement of Whitfield. Clement said Higgins was forced to crawl down the mountain because of the wind which was blowing from 75 to 100 miles an hour. The temperature on the mountain, he said, was about 25 degrees below zero.

STUDIO COUCHES

Fine Quality . . . Innerspring  
STUDIO COUCHES  
IN LAMMERT'S FEBRUARY SALES

They're New . . . They're Stylish  
They're Values!

STUDIO COUCH

\$29<sup>75</sup>

With a good quality innerspring mattress covered in a smart new green fabric in a delicate design. Do not for a moment confuse these Couches with cheaply made merchandise of metal construction. Makes a very comfortable extra bed.

Georgian Style  
Studio Couch

Complete with two arm  
pillows as illustrated

\$39<sup>75</sup>

With innerspring mattress in an interesting selection of the new fabrics. Makes a very comfortable extra bed. Carved legs . . . There's practically no limit to the range of choice available in covers to fit these Studio Couches. That is governed solely by your desires and the amount you wish to spend. In every case the quality is such as you expect to find at Lammert's.

\$350,000 VERDICT  
IN HAHATONKA SUIT

Damages Awarded Snyder Estate for Union Electric's Bagnell Dam Work.

By the Jefferson City Correspondent of the Post-Dispatch.

JEFFERSON CITY, Feb. 3.—The jury in the Hahatonka condemnation suit in Federal District Court here today returned a verdict of \$350,000 damages for the Snyder estate of Kansas City against the Union Electric Light &amp; Power Co. of St. Louis, for about 159 acres of the Hahatonka tract in Camden County which was submerged by the La. of the Ozarks, formed by construction of the Bagnell dam on the Osage River.

Condemnation commissioners appointed by the court had awarded the estate \$142,000 in damages.

Both the company and the estate appealed from the award by the commissioners.

Attorneys for the Union Electric today announced they would appeal from the \$350,000 verdict.

Trial of the case in Federal Dis-

trict Court here began last Nov. 30

and has been in progress since.

Many expert witnesses and engi-

neers were presented in support of

the claim of the Snyder estate for

at least \$1,000,000 in alleged dam-

age to the Ozark river spot, and

the Union Electric claim that the

estate had been benefited instead of

damaged through formation of the

impounding reservoir, known as the

Lake of the Ozarks.

Court officials estimated the

probable cost of the case of both

sides, including fees paid expert

witnesses, court costs, attorneys' fees

and other items, at about \$150,000.

For several weeks each

of the litigants reserved an entire

floor of a local hotel to provide

rooms for witnesses, counsel and

others.

The Hahatonka tract was devel-

oped by the late Robert M. Snyder

of Kansas City, operator of the for-

mer Kansas Natural Gas Co.

The appeal was conducted by the Snyder Estate Co., a corporation formed by Snyder's three sons, Kenneth W. Leroy J. and Robert M. Snyder Jr. Former United States Senator James A. Reed of Kansas City was chief counsel for the estate in the condemnation suit.

The case went to the jury last Thursday following arguments of counsel and it deliberated 28 hours and 45 minutes before returning the verdict.

Costs incurred by the Union Electric in the case and the amount the courts finally rule must be paid to the estate for the land taken, likely will be included in the valuation of the Union Electric for rate making purposes on which its customers must pay rates yielding a reasonable return, since the land was taken in connection with construction of the Bagnell hydroelectric project, one of several electric generating plants owned or controlled by the Union Electric.

GARNER RIDES IN TAXICAB

TO WHITE HOUSE DINNER

Henry Ford and Walter P. Chrysler Among Other Guests of the President.

By the Associated Press.

WASHINGTON, Feb. 3.—Speaker Garner and his wife were dined last night by President Hoover.

Mr. and Mrs. Garner left their modest hotel near the Capitol by taxicab, and paid a 20-cent fare.

The Speaker's \$5,000 limousine, true to Garner's promise on taking office, has ceased to be.

They met the leaders of industry and politics, including Henry Ford, Walter P. Chrysler, W. W. Atterbury, Melvin A. Traylor, Breckinridge, and James M. Gerard.

The occasion was one of the few times that a President has ever entertained in honor of a Speaker of an opposing political party.

Others among the guests were Frank H. Hitchcock, publisher of the Tucson (Ariz.) Citizen and a former chairman of the Republican National Committee; Joseph P. Tumulty, who was secretary to President Wilson; Louis K. Liggett, Republican national committeeman from Massachusetts, and Representatives Rainey of Illinois and Snell of New York, respectively, Democratic and Republican floor leaders of the House.

FRIENDS IN SPITE OF FIGHTING

Chinese and Japanese Majors in United States Still Pals.

FORT LEAVENWORTH, Kan., Feb. 3.—The fighting at Shanghai has failed to wreck the ties between Majors Masafumi Yamashita of Japan and Iai-Ming Chow of China, golf rivals and classmates at the United States Army Command and General Staff School here.

While studying the higher branches of modern warfare on neutral ground, the two officers continue their rounds on the links, their dinners together, and visits to one another's quarters. They will complete their courses in June and expect to return home immediately.

VATICAN EMPLOYEE SUSPENDED

Technician Blamed in Collapse of Library Building.

By the Associated Press.

VATICAN CITY, Feb. 3.—Rafio de Ross, chief of the Vatican technical bureau, has been suspended from duty because of his implied responsibility for the collapse of a wing of the Vatican library last December.

The suspension was imposed 10 days ago at the beginning of an investigation into the accident but was not announced until today when the commission of inquiry held its first formal session.

## PEMISCOT COUNTY

## SHERIFF REINDICTED

Accused With Deputies in Dry Case—19 True Bills Returned.

In a partial review of its work presented to Judge Paris today the Federal grand jury reported it had returned 19 true bills, including five in which Sheriff W. P. Robertson of Pemiscot County and 14 others are reindicted on charges of conspiracy to violate the national prohibition law.

The Sheriff and five of his deputies, with nine other men, were indicted originally in Cape Girardeau.

The indictment, however, indicated that he would sustain a demurrer filed by their attorneys, the Government obtained a postponement and submitted the case to another grand jury at St. Louis.

The Federated Metals Co. was indicted on charges of violating Interstate Commerce regulations by shipping brass and copper as brass residue and so obtaining a lower rate which resulted in a saving of \$600.

Frank C. Huseman, president of Ideal Liquid Heating Machine Corporation, and Charles M. Miller, employee, were indicted for concealing assets of the firm which filed a voluntary petition in bankruptcy last March.

The other indictments involved minor mail fraud cases and liquor and narcotic violations.

CHICAGO 'BEER TWINS'  
SENT TO LEAVENWORTHDruggan and Lake Sentenced  
and Fined for U. S. Tax-Dodging.By the Associated Press.  
CHICAGO, Feb. 3.—Frank Lake and Terry Druggan, the so-called "beer twins," were sentenced yesterday to the Federal penitentiary at Leavenworth, Kan., for violations of the Federal income tax law.

Lake got 18 months and was fined \$2500. Druggan was sentenced to two years and fined \$500. Both pleaded guilty of non-payment of taxes.

The sentences were passed by James H. Wilkerson, the Judge who sentenced "Scarface" Al Capone to 11 years as an income tax dodger, and who has dealt out prison punishment to other gangsters on similar charges, including Capone's brother, Ralph.

Lake and Druggan will be taken to Leavenworth Friday with a regular consignment of Federal prisoners.

ST. LOUIS TORNADO FACTOR  
IN INSURANCE RATE FIGHT

Heads of Firms Questioned on Policy of Allocating Losses Following Catastrophe.

By the Associated Press.  
NEW YORK, Feb. 3.—The tornado of 1926 which did great damage in St. Louis will figure in the insurance rate fight in Missouri, it was indicated at the special hearings before Paul Barnett of Kansas City, Mo., Federal Court Master in Chancery.

Attorneys for the Missouri Insurance Department, examining the third and fourth of 11 insurance company presidents subpoenaed, asked yesterday whether the same policy in allocating losses is followed in catastrophes as in conflagrations. They wished to know how much was charged to the State in which catastrophes occur, and how much to other States.

Alfred D. Moss, president of the Merchant's Fire Assurance Corporation of New York, testified his company followed the same policy in both cases. Insurance Department lawyers later expressed satisfaction over this admission. They said the general practice had been to charge up the first \$1,000,000 exclusively on rate-making records of the State in which the catastrophe occurred, and to spread the rest of the loss over general territory.

"But the St. Louis tornado total loss was passed on to Missouri by the insurance companies," said Glenn C. Weatherby, Special Assistant Attorney-General of Missouri. "It happened during the test period and of course makes a big difference in the records of the losses."

The hearings here are to get evidence in the Insurance Department's case, as defendant in 144 separate injunction suits brought by insurance companies to prevent the department from interfering in a 16.23 per cent rate rise for fire and tornado insurance. The increase was put into effect June 1, 1930.

CONFESSES KILLING SEVEN  
AT THE COMMAND OF 'GHOSTS'

Prisoner Said to Admit Slashing Attack on Family Near Contour, Manitoba.

By the Associated Press.  
WINNIPEG, Manitoba, Feb. 3.—Police said today that Tom Hrechko had confessed he slashed to death seven members of a family near Elma last Friday because "ghosts" commanded him to do it. He was captured at Contour, 12 miles from the farm home where Martin Stier, his wife and five children were slain.Let Us Convert Your

RHEUMATIC PAINS

DRAW them out with a "counter-irritant." Muscular lumbago, soreness and stiffness—generally respond to good old Musterole. Doctors call it a "counter-irritant" because its warming action penetrates and stimulates blood circulation and helps to fight infection and pain. It gets action and is not just a salve. But do not stop with one application. Apply this soothing, cooling, healing ointment generously to the affected area once every hour for five hours. Used by millions for over 20 years. Recommended by many doctors and nurses. All druggists.

To Mothers—Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

## RECEIVER BEGINS ACTION TO RECOVER CLAIM OF \$84,000

Alleges Fidelity Bond & Mortgage Co. Advanced Cash to Its Affiliate, the Fidelity Bank.

The Fidelity Bond & Mortgage Co., which is in receivership, advanced \$84,729 to bolster its failing affiliate, Fidelity Bank & Trust Co., over a period of months before the bank closed last October, it is stated, and is asking for permission to enter a claim for that amount filed in Circuit Court today on behalf of Isaac T. Cook, receiver of the Bond & Mortgage Co.

The application, filed by Joseph H. Grand, attorney for the receiver, was approved this afternoon by Circuit Judge Norton. It states that loans and cash advances were made to the bank to enable it to satisfy the requirements of the State Finance Commissioner. One loan of \$15,000 was made, Grand said, to enable the bank to pay dividends to stockholders other than the controlling group.

The bank, at 1122 Washington avenue, was closed by its directors Oct. 22, and is being liquidated under the direction of the State Finance Commissioner. The Bond & Mortgage Co., with offices in the Chemical Building, was placed in receivership Nov. 30.

J. U. Menter, chairman of the bank's directors, was president of the Bond & Mortgage Co. Menter and others interested in the Bond & Mortgage Co. purchased control of the City Trust Co. in July, 1927, and later renamed it the Fidelity Bank & Trust Co.

The closing of the bank was attributed by Menter to the decline in the bond market. It was capitalized at \$200,000, reported a surplus of \$50,000 and deposits of \$1,156,977. An inventory has been filed by a State bank examiner fixing its assets at \$1,774,000. No schedule of liabilities has been filed.

The Bond & Mortgage Co. sold about \$12,000,000 in first mortgage real estate bonds of which it guaranteed principal and interest. About \$4,000,000 of these are in default. An audit of its books for the receiver has not yet been completed.

200,000 GARMENTS GIVEN TO 33,000 PERSONS IN A YEAR

(Continued from Page 3.)

ers available, and more overcoats are needed.

Underwear is needed particularly, and there is little hope that an adequate supply will ever be on hand, because the sort most needed, warm garments with long sleeves and legs, is worn infrequently by those to whom the bureau must look for its contributions.

The last contribution of underclothing is still remembered by the bureau staff. It was received from a woman who had read of the need and purchased \$75 worth at a department store. Her bundle was gratefully received by the attendants, who opened it and found union suits which cost \$3.75 each. Quickly the bundle was wrapped again, returned to the store and exchanged for garments which sold for 89 cents.

Almost everything contributed to the bureau is put to some use. Morning coats, evening dresses and dancing pumps are hardly the stuff most useful to the unemployed, but the shoe repairing department proved its usefulness by repairing several hundred pairs of unseemly high shoes donated by the factory into acceptable Oxford, and the dressmaking division turns out neat dresses for children by cutting up surplus vests and men's coats.

All clothes cleaned. In all its operations the bureau strives to encourage the morale of those it assists. The garments are clean and neatly pressed when distributed. Clothing undesirable because of antique pattern or limited size is often turned into something more acceptable.

When the requisitions cannot be filled, the needy must return again, and usually arrive earlier in the day. Sometimes the visit must be repeated several times. Finally, if the bureau has been unable to fill the need, the articles must be purchased by the relief agency.

The Citizens' Committee has followed the policy of not supplying the bureau with funds with which to buy needed articles. If these cannot be obtained by contribution, they may be obtained through orders on local merchants issued by the relief agencies. In this manner the bureau is kept from entering into competition with merchants, many of whom have contributed to the fund which supports it.

Mrs. Bettman and her fellow workers believe that the bureau would not be required to turn away applicants empty handed so often if its work were properly appreciated by the public. She suggested to receive visitors there and show them what is being done. The needed contributions may be left at the bureau, or a telephone call to Central 3265 will bring a truck to collect them.

Holdup Men Get \$7000.

BOSTON, Feb. 3.—Three men to day held up William J. Brown, paymaster for the Boston Elevated Railway Co., and escaped with a payroll between \$7000 and \$8000.

of two small children. Police said the woman was about 25 years old. In her room letters were found addressed to Mrs. Margaret McCoy of Washington. She was fully clothed except for shoes and stockings. Her shoes, the soles worn through, were found in the room.

## WOMAN KILLED IN PLUNGE, BABIES' PICTURE IN HAND

West Virginia Resident Falls or Jumps From Tenth Story of New York Hotel

NEW YORK, Feb. 3.—A woman who registered at a hotel as Carol Smith, Mrs. Eddie, 21, either jumped or fell from a tenth-story window to her death early today. Her body was found on the roof of an extension of the hotel. In one hand was a photograph

of two small children. Police said

the woman was about 25 years old.

In her room letters were found addressed to Mrs. Margaret McCoy of Washington. She was fully clothed except for shoes and stockings. Her shoes, the soles worn through, were found in the room.

## Describes Sensations In Lake Placid Bob Sled Clipping Off Mile a Minute

Reporter Told, "You Asked for It, Let's Go," They Shake Hands and Dive Begins— Trip 5 Minutes Before Crackup.

Five minutes before the German bobbed team cracked up on the Olympic run, seriously injuring two members, Edward J. Neil, Associated Press staff man, covered the course in a mile-a-minute dash, with Harry Homberger, American pilot. He was an eye-witness to the smash-up immediately afterward yesterday and describes his experiences hereafter.

By EDWARD J. NEIL, (Associated Press Staff Writer.)

LAKE PLACID, N. Y., Feb. 3.—They took me down the most dangerous mile and a half in the entire sports world, gave me thrills enough to last a lifetime, and then unexpectedly I saw what happened to the occupants of a less fortunate sled.

It was 7 o'clock in the morning, deadly cold on the top of Mount Van Hoevenberg and the bob sleds of eight nations, most who had been nervous, laughed and chattered in a sort of French, German, Swiss, Rumanian, Belgian, Italian, Austrian and English.

At their feet lay the contraptions known as bob sleds, 500 pounds of steel and oak. In the air was a fine mist of snow. We were at the start of the Olympic bob slide, the mile and a half of glaze ice twisting through 25 awesome bends and hairpin curves down the mountainside, the racing strip that in two days has sent eight Germans to the hospital. Yesterday the mark. Yesterday two of them were killed.

"You Asked for It, Let's Go."

They watch the starter with his red flag. Suddenly he gets word from a telephone strung along the slide that all is clear.

"Get ready," he yells, "to the mark. Harry Homberger's red devils."

Harry—they call him Hank—winks.

"You asked for it, let's go."

He's just a pleasant kid, 26 years old, but a civil engineer from Saranac Lake, the fellow who built this slide. He is pilot, four lives and a steering wheel in his grasp.

They say he's the greatest bob sled driver in the history of the sport, dark, keen-eyed, quiet. He is the Albie Booth of bob sleds, 158 pounds, but his shoulders the wrist in the crew. His world record is 1:52 for one and one-half miles.

Hank climbs behind the wheel, we settle on the sled, bracing feet, gripping the straps on the side with hands shielded in padded gloves. I was in the sled between George Peary, Bryant and the brakeman, Ed Horton, who yanks the steel jaws that clutch at the ice when we need to slow down.

**Handshake Before Start.**

Solemnly the men of other nations who can't hope to equal Homberger's skill shake our hands. They do that before each run. They act as though they never expected to see you again.

Particularly does Fritz Grau, German captain, make it a point to slap our backs. So does Albert Breuer, Heinz Hoffmann, the German jockey Rudolph Krotki, the German team masseur, who takes Max Ludwig's place for the day. An hour later they were all in a hospital.

Hank turns for a last word.

"It's not so fast today," he says, "but I'll do my best to give you a thrill."

One heave and we're off. The foreigners dash for places around the telephone. Each station calls off our progress. I've watched them stand there tense, silent, waiting, knowing they'll be no shout. "They've jumped a bank." That means you've smashed through a curve going a mile a minute and your body is hurling down a mountainside studded with rocks and trees and ice. I saw that, too.

**The First Straight Drop.**

Swiftly we pick up speed on the first straight drop. We're shooting down what looks like a sort of solid ice with the top half cut off. The sled runners begin to sing. The wind tears at your head, 40, 50, 60 miles an hour. "Lean," screamed Horton in my ear.

Up into my face came a dazzling wall of white ice. I leaned hard. We sweep to the top. The runners slide, catch, we hurtle down again. That was the turn called Eyrle.

Now it's 40 again and going up, and one after another come the blinding banks, 10-20-20 feet high. Desperately I leaned. This way, that way, the ice is blinding, faceless, straining. The wind is blinding. Tears stream from your eyes. You think you can't hold on another second. You fight, surge, and then you're out of the curve and flying down a straightaway. Seventy miles an hour, and you get a breath.

Then something begins to happen to your nervous system. The nerves are getting stiffer. You're taking them over. Suddenly you begin to tingle, every muscle in your body feels as though some one were playing on it with the bow of a fiddle. Excitement sweeps up from your toes, reaches your throat. Back goes your head and you howl with the sheer joy of it.

**Rounding Shady Corner.**

You're ready now for the serious part. "Whiteface," a vertical semi-circle of ice 35 feet high at 70

brought my gun. I saw a rabbit I could have got when we were going through Shady."

"What's the idea?" asked Paul Stevens, whose place I took. "Did you have to walk down?"

We started back up the mountain. Almost at Shady we heard another bob accelerating down the course. We jumped behind the track peering through the snow up the twisted ice ribbon. We could see Shady up the bend.

A bob flew into the turn at 70 miles an hour, swerved, runners shrieked. The sled swept the incline, smashed through the top.

Four bodies hurtled through the air into a deep ravine below. It was our friends, the Germans, Grau, Brehme, Hopmann and Krotki.

We raced up the slide, helped carry the battered forms to the ambulance. Grau has a fractured shoulder, broken hip, injured spine, hand and skull. Brehme's skull and hand are broken. The calf was all but torn from Hopmann's leg. Krotki, the substitute, jumps up the slope, his back strained.

"That's the way it goes," Homberger sighed.

Yesterday the mark. Yesterday two of them were killed.

"You Asked for It, Let's Go."

They watch the starter with his red flag. Suddenly he gets word from a telephone strung along the slide that all is clear.

"Get ready," he yells, "to the mark. Harry Homberger's red devils."

Harry—they call him Hank—winks.

"You asked for it, let's go."

He's just a pleasant kid, 26 years old, but a civil engineer from Saranac Lake, the fellow who built this slide. He is pilot, four lives and a steering wheel in his grasp.

They say he's the greatest bob sled driver in the history of the sport, dark, keen-eyed, quiet. He is the Albie Booth of bob sleds, 158 pounds, but his shoulders the wrist in the crew. His world record is 1:52 for one and one-half miles.

Hank climbs behind the wheel, we settle on the sled, bracing feet, gripping the straps on the side with hands shielded in padded gloves. I was in the sled between George Peary, Bryant and the brakeman, Ed Horton, who yanks the steel jaws that clutch at the ice when we need to slow down.

**Handshake Before Start.**

Solemnly the men of other nations who can't hope to equal Homberger's skill shake our hands. They do that before each run. They act as though they never expected to see you again.

Particularly does Fritz Grau, German captain, make it a point to slap our backs. So does Albert Breuer, Heinz Hoffmann, the German jockey Rudolph Krotki, the German team masseur, who takes Max Ludwig's place for the day. An hour later they were all in a hospital.

Hank turns for a last word.

"It's not so fast today," he says, "but I'll do my best to give you a thrill."

One heave and we're off. The foreigners dash for places around the telephone. Each station calls off our progress. I've watched them stand there tense, silent, waiting, knowing they'll be no shout. "They've jumped a bank." That means you've smashed through a curve going a mile a minute and your body is hurling down a mountainside studded with rocks and trees and ice. I saw that, too.

**The First Straight Drop.**

Swiftly we pick up speed on the first straight drop. We're shooting down what looks like a sort of solid ice with the top half cut off. The sled runners begin to sing. The wind tears at your head, 40, 50, 60 miles an hour. "Lean," screamed Horton in my ear.

Up into my face came a dazzling wall of white ice. I leaned hard. We sweep to the top. The runners slide, catch, we hurtle down again. That was the turn called Eyrle.

Now it's 40 again and going up, and one after another come the blinding banks, 10-20-20 feet high. Desperately I leaned. This way, that way, the ice is blinding, faceless, straining. The wind is blinding

**"KLUTCH" HOLDS FALSE TEETH TIGHT**

## Hitlerites Adopt Rules To Regulate Marriages

Racial Commission Must Pass on All Alliances—Purpose Is to Maintain "Nordic Supremacy."

By the Associated Press.

MUNICH, Feb. 3.—In a Germany under Hitler, a Fascist racial commission would control marriages.

A printed order has been issued by the head of the SS (Security Squad) section of the Hitler "troops," Heinrich Himmler, that all men contemplating marriage must report their intention to their superior officer.

A racial commission, after due examination would grant or withhold permission for matrimony on a primary basis of racial, moral and spiritual qualifications.

This racial commission represents the first step of the Hitlerites to put their favorite theory of Nordic superiority to work for their self-appointed task of creating a "new German aristocracy from the blood and the soil."

While only about 10,000 of Hitler's "army" of 200,000 are affected, and the order comes from a subordinate, there is every indication that it was conceived as a basis for a broader plan, eventually including the SA (Storm Troops) and the entire German Reich. The order reads:

"1. The SS is in many respects a chosen group of men definitely Nordic."

"2. In accordance with the National-Socialist Weltanschau and the belief that the future of our nation rests upon the selection and preservation of congenital health and good racial blood, I decree that beginning Jan. 1, 1932, all unmarried members of the SS submit an application for a marriage permit."

"3. The desired goal is the maintenance of the congenitally healthy, definitely Nordic-Teutonic type."

"4. Permission for marriage will be granted or refused solely on the basis of health and racial considerations."

"5. Therefore every SS man intending to marry must apply to the Reichschef of the SS."

"6. Members of the SS who marry despite refusal will be struck from the SS membership list."

"7. The SS racial commission will examine and pronounce on applications."

"8. The SS racial commission will keep a family chronicle where names of family members of SS adherents who thus secure approval, will be entered."

"9. The Reichschef of the SS, the head of the racial commission and

**DOROTHY KNAPP CHANGES STORY, ADMITS GETTING PAY**

At First Denies She Received Checks Allegedly Due for Salary Subsequent to Discharge.

By the Associated Press.

NEW YORK, Feb. 3.—After denying that she received three checks for \$900 each after her dismissal from Earl Carroll's show "Floretta," Miss Dorothy Knapp, recalled to stand in her \$500.00-a-week job, admitted that she must have deposited them.

Once called "the most beautiful girl in the world," Miss Knapp is suing Mrs. Anne Penfield, widow of the former Ambassador to Austria and backer of the show. She alleges she was discharged at Mrs. Penfield's insistence from a \$1000-a-week job in the name role of "Floretta," three weeks before it ended its New York run in 1929. She had been asked about the three checks for \$900 each, apparently during her weekly salary and issues at weekly intervals subsequent to her alleged discharge. The defense contended these checks represented her pay. She denied receiving them. The defense attorney persisted and she began to cry. She had not received them, she insisted. A bank teller was called and he identified the checks as having been deposited to Miss Knapp's account. Miss Knapp then admitted that she "must have deposited" the checks.

The defense moved to dismiss the suit, which Justice Ellsworth granted insofar as it affected George L. Bagby, musical protege of Mrs. Penfield who wrote part of the score for "Floretta" and Vanities Production Corporation. He reserved decision regarding other defendants.

One of the co-defendants, Mrs. Emily Hubbell, Mrs. Penfield's secretary, testified that after the show opened in Baltimore she expressed the opinion it was "a pity to spoil the show" by having a prima donna who did not sing.

**WOMAN SOUGHT AS \$60,000 EMBEZZLER IN INSURANCE FIRM**

"Faithful Employee for More than 10 Years" Named in Chicago Warrant.

By the Associated Press.

CHICAGO, Feb. 3.—Mrs. John Thompson, 42 years old, described as a "faithful employee for more than 10 years" of the Hartford Accident and Indemnity Co., is sought on a warrant charging embezzlement of about \$60,000.

Mrs. Thompson resigned her position with the firm last October and her former employer said that shortly after her departure they discovered losses of more than \$35,000 in her accounts. Further investigation raised the alleged peculations to about \$60,000, they said. Mrs. Agnes Gibson, her sister, said Mrs. Thompson, known to her employers as Miss Dorothy Dunbar, had borrowed the money with the knowledge and consent of company officers and had signed notes for the entire amount.

## FLOODS IN WESTERN KENTUCKY, MANY FAMILIES LEAVE HOMES

By the Associated Press.

LOUISVILLE, Ky., Feb. 3.—The Ohio, Cumberland and Green rivers are at flood stage in Western Kentucky, having driven many families from their homes and caused considerable property damage. Many roads are covered with water and transportation is further impeded by the closing of many ferries.

The Mississippi River drove most

of the families from their homes and Weather Bureau predictions were that it would continue to rise

today. Far Western counties bordering the river are hard hit.

Heavy rains throughout the State

contributed to the flood waters.

Floods in Central and Eastern

Kentucky, which claimed three

lives last week, drained off into

tributaries of the Western Ken-

tucky rivers.

Mique Malloy's Son, Jimmy, Dies.

By the Associated Press.

CHICAGO, Feb. 3.—Jimmy, 9-

year-old son of Mique Malloy, Chi-

cago and St. Louis boxing promotor, died yesterday from an infection

the origin of which was undeter-

mined. He had been ill a week.

Another son, John, 22, is in a hos-

pital recovering from severe in-

juries suffered in an automobile

accident two weeks ago.

**Mix This at Home For Bad Coughs Due To Colds**

You'll be pleasantly surprised when you make up this simple home mixture and try it for distressing coughs due to colds. Take a pint of water to mix and costs little, but it can be doubled upon to give quick and lasting relief.

Get 2½ ounces of Pinex from any druggist. Pour this into a pint bottle; then fill it with plain grape juice or syrup or strained honey. The full pint thus made costs no more than a small bottle of ready-made medicine, yet it is twice as effective. It is pure, keeps perfectly and children love its pleasant taste.

This simple remedy has a remarkable three-fold action. It goes right to the seat of trouble, locates the germs, plucks them out and removes the inflammation. Part of the medicine is absorbed into the blood, where it acts directly upon the bronchial tubes and lungs, and carries to the heart on the whole trouble with surprising speed.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a remarkable form, known as one of the greatest healing agents for incipient bronchial coughs and other severe coughs due to colds. Please accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

**FETE FOR WOMAN, 100; SISTER, 101, IS GUEST**

Mrs. Bridget McLaughlin Celebrates Birthday at Belleville Home for Aged.

Mrs. Bridget McLaughlin of the St. Vincent's Home for the Aged at Belleville celebrated her 100th birthday yesterday with her 101-year-old sister, Mrs. Katherine Kerwick, as one of the liveliest and most interested guests.

The sisters, who entered the home from Carlinville, Ill., last year, are the only survivors of a family of eight children, the youngest, James Lee, having died five years ago at the age of 93. Their parents, John and Bridget Lee, died at 70 and 80, respectively.

Both were born in Ireland. The elder, "Kitty," as she is known at the home, came to this country in 1848 and her sister followed 20 years later. William Kerwick, husband of the elder, died in 1864. She had four children, one of whom, Mrs. Mary McNaught of Hannibal, Mo., is still living. Mrs. Kerwick is looking forward to her 102d birthday next June 27. Bridget, 101, is the widow of James McLaughlin, who had no children.

Both sisters are alert, retain their faculties to a remarkable degree and take daily walks around the home to gossip with the "younger old folks."

"We sleep a good deal and eat plenty of fruit, but are sparing of meats, sweets and fats," said Mrs. McLaughlin. "And we like a little glass of beer and you bet we get one every day," her sister added.

Mrs. McLaughlin cut a cake with 100 small candles, prepared for her by the sisters, and conducted the home, the Poor Handmaids of Jesus, listened with her friends to phonograph music, and finally recited some Irish verses. Mrs. Kerwick said she "felt like dancing," but explained, "my limbs were a bit stiff."

Asked by the sisters what she wanted for her birthday, Mrs. McLaughlin replied promptly, "one hundred bananas, my favorite fruit." She will get 100 bananas, but only one at a time.

"It's happy, I am now," said the centenarian, who retains a trace of Irish brogue, at the end of the day, "and I sure hope that everyone here is just as happy."

**PILOT SAVED BY PARACHUTE FROM FREEZING AFTER CRASH**

Leg Broken, He Is Protected from Cold and Snow for 17 Hours.

By the Associated Press.

KALAMAZOO, Mich., Feb. 3.—Francis Rust, 34 years old, air mail pilot, is alive today because the folds of his parachute protected him from cold and snow as he lay with a broken leg for 17 hours after his airplane had plunged into a snowbank.

Sought by state police and civilians, Rust was found late yesterday lying at the edge of a swamp. At Bronson Hospital Dr. C. E. Boys said he would recover unless pneumonia develops.

Clarence Meyers, a farmer, led searchers to the plane. He said he heard a crash shortly after midnight, but did not realize its significance until he learned that a Kalamazoo-Chicago mail plane was missing.

Rust, war-time pilot and veteran in the mail service, relieved the lone pilot here at midnight Monday on the Pontiac-Chicago flight. He was last reported circling the beacon at Marcellus and is thought to have crashed a few minutes later. Rust had been employed by the Thompson Aeronautical Corporation since last May.

Rust flew out of Lambert-St. Louis Field for about a year, working for American Airways until the spring of 1930.

## General News

PART TWO.

Slain in Quarrel With Brother.  
HANNIBAL, Mo., Feb. 2.—Ernest Monroe, a fisherman, died in hospital here last night of a gunshot wound which, officers said, was inflicted during a quarrel with his brother, James, at their home Sunday night. Police quoted the brother, who was held after the shooting, as saying the quarrel arose over bootlegging activities.

### CLAIMS AGAINST ERLANGER ESTATE PUT AT \$10,000,000

If All These Are Allowed, Attorney Is Doubtful If It Will Be Solvent.

By the Associated Press.  
NEW YORK, Feb. 3.—Claims against the estate of Abraham L. Erlanger, theatrical producer, total more than \$10,000,000, Isidor J. Kresel, attorney for the heirs, said yesterday. If all the direct and contingent claims were allowed, he added, it would be doubtful whether the estate would be in a solvent condition.

Kresel said the statements before Surrogate John P. O'Brien, as Charles C. Smith, attorney for W. F. Winecoff, Atlanta theater man, asked for an accounting of the estate and payment of a \$30,000 claim.

"We do not state we are insolvent," said Kresel, who has defended the estate in a suit by Charlotte M. Fixel, who seeks a share of the Erlanger fortune on the ground she was the producer's common-law wife.

"We hope we are not insolvent," he continued, "but if all claims, contingent or otherwise, are allowed, then there is no doubt that there will not be enough to pay 100 cents on the dollar."

Geo. P. Carver, General Agent, 412 Locust St., St. Louis, Mo. Telephone GARfield 2134.

## WINTER OLYMPIC GAMES OPEN TOMORROW AT LAKE PLACID

GERMAN YOUTH  
MAY DIE FROM  
INJURIES IN  
SLED ACCIDENT

By the Associated Press.

LAKE PLACID, N. Y., Feb. 3.—While six of Germany's shattered bob sled contingent lay in the village hospital today, one of them so badly hurt he may die, Lake Placid prepared to launch the winter Olympic Games tomorrow.

Jackie Prinz, 17, of Berlin, will have a brief address at the opening ceremonies tomorrow morning. Jack Shea, a local boy who made good as a speed skater, will stand before him to swear the Olympic oath for 331 representatives of 17 nations.

A moment later and he will face the starter with the speed kings of the world in the first of the skating races, the 500-meter dash.

**GAMES CLOSE Feb. 13.**

From them until the hockey teams of Canada and the United States meet here for Germany and Poland for the puck chasing title, clash in the closing event of the games Saturday afternoon, Feb. 13, the greatest stars of the winter sports world will strive for Olympic laurels.

Mild weather of the past few weeks has given place to real winter. Snow falls throughout the past two days have padded the ski trails along the Adirondack slopes.

There is ice aplenty, and the mercury stays well down near zero. The streets are hung with flags, saluted by the hosts of visiting athletes in their Olympic regalia, and the natives fill the by-ways with horses and sleighs, ski jockeys and just plain skiers, all in the bright outifts of the winter sports people. Only in hotel lobbies was there plenty of room to spare.

There was but one shadow in the picture.

Lake Placid Hospital victims of two savage crashes on the heart-searing Olympic bob run down precipitous Mt. Van Hoevenberg lay the aces of the one foreign contingent that threatened America's bob running supremacy.

**German Stars in Hospital.**

On the danger list, seriously injured, was the name of Albert Brehme, young brakeman on the sled of Capt. Fritz Grau the second German pilot to crash through a turn on glancing ice slopes of Mt. Van Hoevenberg within three days. Brehme suffered a fractured skull, probably a fracture of the spine, broken wrist, and several cuts as the sled broke through the top of "shady corner" traveling 70 miles an hour and catapulted 150 feet into the rocks and saplings of a ravine below.

Capt. Grau was less seriously injured. He suffered a broken right hip and shoulder, concussion of the brain, and deep cuts about the head.

Two other members of the crew, Helmut Hoppmann and Rudolf Krotki, also were in the hospital. The half of Hoppmann's leg was badly torn and he suffered a brain concussion. Krotki escaped with a back injury.

In the same hospital Capt. Werner Zahn and Dr. Heinrich Mehlhorn, members of the German sled that crashed through the "big zig" curve Sunday still were under treatment.

**Ribas Here for Title Cue Match With Peterson**

Senor Isidro Ribas of Spain, who has been practicing in Chicago, arrived here yesterday and looked impressive in his first local work-out in preparation for his international fancy shot billiard series with Charley Peterson of St. Louis.

The Spaniard, who possesses a powerful stroke, states he is ready for the opening of the title match set for next Monday night at the St. Louis University gymnasium.

A meeting has been called for this afternoon for Peterson, Ribas, their representatives, officials of the National Billiard Association, sports writers and Referee J. P. Foy. The billiard match will take place in Peterson's billiard room and final arrangements for the match will be made.

**Country Day Is Victor.**

A revamped Country Day basketball team nosed out Chaminade on the Champlain court yesterday, 13-14. It was the winners' second victory over the county five this season.

**Olympic Winter Sports Program**

**SPEED SKATING (MEN).** To be held in Olympic Stadium, Feb. 4, 5 and 6. Competition at 500, 1000, 2000 and 10,000 meters, with relay, 10,000 and 20,000 meters, Japan, Norway, Sweden and United States.

**SPEED SKATING (WOMEN).** Exhibitions scheduled Feb. 6 and 10. Stadium, at 500, 1000 and 1500 meters, by Canada and Canada.

**HOCKEY.** To be held in Olympic Stadium and Olympic Arena Feb. 4 to 12. Canada and United States, Canada, United States, Germany and Poland.

**BIKE SLEDDING.** To be opened Feb. 6 and 7. Canada and Canada competing.

**"Hit 'Em Over That Wall," Max Tells Hack**

HACK WILSON, obtained from the world champion Cardinals by Brooklyn, shaking hands with MAX CAREY, his new manager, at Ebbets Field, after he had signed a contract for 1932, calling for a reported \$16,500.

**BRADY TO MEET PURVIS IN BOUT HERE NEXT WEEK****McMillen and Steele Wrestle at Arena Tonight For 5th Time Within Year**

By Damon Kerby.

For the fifth time within a year, Ray Steele and Jim McMillen will meet in a grueling and grueling affair when they appear in the head-line event of the wrestling program at the Arena tonight.

The score for 1931-32 is 2-2-2, McMillen one and one time draw. McMillen's supporters argue that the former football player is due for another victory.

And as tonight's bout is called to box the 10-round main event, Eddie Shea and Jim Ghoony are

to box the 10-round main event. Another 10-round and a match of six rounds will complete the program.

Both Purvis and Brady have shown the St. Louis fans enough to justify the belief that it will be a good battle. Brady recently had a draw with Eddie Ran and Eddie Shea and boxing a draw with Jackie Horner in a bout at the Coliseum and previous to that he knocked out Joey Medell at the Arena, while Purvis has fought here three times, losing after vicious battles to Eddie Ran and Roy Mitchell and boxing a draw with Jackie Horner in a bout at the Coliseum which the spectators thought he had won.

For instance, Steele and Londos met five times in 1930; McMillen and Londos only four times.

Steele and Londos have met once this year; McMillen has yet to corner the wily champion into a match (in 1932). As Steele is one up on McMillen, the title holder.

Eddie Shea, "the boy" but McMillen-Londos match or matches of the future can be held at any one of a half dozen cities. So can Steele's, for that matter, but the boys' who try to call the turn on the pachymeters are casting a solid vote for Steele in tonight's what's the phrase? "epic" encounter.

The last time McMillen and Steele wrestled, three weeks ago in Baltimore, McMillen won by the score of a flying tackle, Steele saying that McMillen's tying tackle caught him completely by surprise. Wrestling addicts here who have seen McMillen and his flying tackle and have also seen the nimble Steele, know how completely

surprised Steele must have been.

Surprised as he was, Steele didn't let the defeat upset his morale. He has wrestled six or eight times since the defeat and except for another loss at the hands of Jimmy Londos the other night in Baltimore he has come through with flying colors.

Both Purvis and Brady have shown the St. Louis fans enough to justify the belief that it will be a good battle. Brady recently had a draw with Eddie Ran and Eddie Shea and boxing a draw with Jackie Horner in a bout at the Coliseum and previous to that he knocked out Joey Medell at the Arena, while Purvis has fought here three times, losing after vicious battles to Eddie Ran and Roy Mitchell and boxing a draw with Jackie Horner in a bout at the Coliseum which the spectators thought he had won.

After leaving St. Louis after the scrap, Brady went to Chicago and fought a draw with Franta Nekolny, the Czech-Slovakian sensation. Field-Bruylard card in the Stadium. Purvis, too, has been boxing regularly.

Shea and Ghoony are due here within the next few days to finish training.

**BACHELORS OPPOSE****M-K-T FIVE TONIGHT**

Battling to defend their lead and their record for the final half of the Greater St. Louis Girls' Basketball Association season, the Champion Bachelors will oppose the greatly improved M. K. & T. squad tonight at Battery A, Grand boulevard and Hickory street. In the other game at 9 p. m., the Crystal City American Legion Post 335 five will clash with the Aquinas club.

**COUNTRY LEAGUE BASKET TEAMS BATTLE TO THE FINISH**

Deadlocked after three extra periods, St. Charles and Ferguson last night mutually agreed to call it a draw and go home with a 29-29 score. The contest played at St. Charles probably is the most unusual of County League basketball in that nine additional minutes were played and neither team a scoring advantage.

Maurice Meyer, St. Charles forward, eclipsed all players by accumulating 17 points in a spectacular floor exhibition. Six field goals and five donated totes accounted for his total.

**COUNTRY DAY IS VICTOR.**

A revamped Country Day basketball team nosed out Chaminade on the Champlain court yesterday, 13-14. It was the winners' second victory over the county five this season.

**Olympic Winter Sports Program**

**SPEED SKATING (MEN).** To be held in Olympic Stadium, Feb. 4, 5 and 6. Competition at 500, 1000, 2000 and 10,000 meters, with relay, 10,000 and 20,000 meters, Japan, Norway, Sweden and United States.

**SPEED SKATING (WOMEN).** Exhibitions scheduled Feb. 6 and 10. Stadium, at 500, 1000 and 1500 meters, by Canada and Canada.

**HOCKEY.** To be held in Olympic Stadium and Olympic Arena Feb. 4 to 12. Canada and United States, Canada, United States, Germany and Poland.

**BIKE SLEDDING.** To be opened Feb. 6 and 7. Canada and Canada competing.

**McKendree Five Wins.** Special to the Post-Dispatch.

LEBANON, Ill., Feb. 3.—The Bearcats of McKendree, with Anderson in the lead, skated out a 28 to 27 victory here last night over the Carbondale Teachers, Holder, S. I. N. U. forward, kept his team in the running with 17 points.

**Skating Races Tonight.** A senior 440-yard race for men and 220-yard events for intermediate boys and girls will be held at the Winter Garden starting at 10:30 p. m. tonight.

**FLYERS OPPOSE TULSA TEAM IN HOCKEY CONTEST****American Hockey League to Play For Stanley Cup**

By the Associated Press.

KANSAS CITY, Mo., Feb. 3.

**T**RUSTEES of the Stanley Cup have accepted the American Hockey League's challenge to the National League for a post-season inter-league series for the professional hockey championship of North America.

President William F. Grange of the American League was notified today by William Foran of Ottawa, Canada, a trustee of the Stanley Cup, that the challenge had been communicated to President Frank Calder of the National League, at Montreal.

The cup, placed in competition by Lord Stanley, will be awarded to the winner of the two divisions of the National League in 1931. If the National League accepts, its entrant in the series will be the winner of the play-offs in the American and International divisions of the National circuit.

The American League has regarded the Stanley Cup as an "outlaw" organization.

The American League had agreed to play any place and any time after the end of the regular playing season.

The cup now is in possession of the Montreal Canadiens, champion of the two divisions of the National League in 1931. If the National League accepts, its entrant in the series will be the winner of the play-offs in the American and International divisions of the National circuit.

**FIGHTS OFF ROBBER  
WHO BOARDED TRUCK**

Packer Thwarts Holdup When He Stops Vehicle at Traffic Sign.

Fred Meyer, a packer of 3724 Cote Brillante avenue, fought off a holdup man who attempted to enter his truck at a stop sign at Oregon avenue and Arsenal street late yesterday.

Meyer said the robber, a young man carrying a rusty revolver, leaped on the running board, opened the cab door and ordered him to open his hands. Meyer pushed the man off the truck and attempted to get out to pursue him, but tripped over a tow rope lying on the floor and was unable to prevent the robber's escape.

Five shots were fired by Michael Anthony, a grocer of 4012 Flinney avenue, at two Negroes at the store last night. The robbers, both armed, also took \$1 from a Negro customer. Anthony followed them to the street with his revolver.

Insurance Collector Robbed.

Miss Anna E. Tensfeld, an insurance collector of 5616 Ashland avenue, was robbed of \$33 by an armed Negro who held him up in his home at Thomas street last night.

The cigar store of Howard Head, 1719 Franklin avenue, was entered by two robbers, one of them armed, who took \$30 and a watch from Head, but did not molest several men who were in the store.

Seated in an automobile in front of 3206 Shenandoah avenue with a young woman residing at that address, John Trick, 3225 Minnesota avenue, was approached by two men who forced him to get out of the machine and then robbed him of \$6 and the automobile keys.

William Miller, a confectioner of 1311 South Boyle avenue, was robbed of \$15 by two men, one carrying a revolver, who entered the store.

Slugged By Robber.

Applying at City Hospital yesterday for treatment of a skull injury, Orville Biles, 2015A McNair avenue, reported he had been knocked unconscious by someone who

**ST. LOUIS POST-DISPATCH**

robbed him of \$21.40 as he was attempting to change an automobile tire at 714 South Fourth street yesterday morning.

Miss Anna E. Tensfeld, a teacher at Cleveland High School, and her mother, Mrs. Johanna Tensfeld, 2023B South Compton avenue, were held up by two men, one armed with a revolver, in front of 1345 Russell boulevard last night. The robbers took \$3 from Mrs. Tensfeld and 35 cents from her daughter.

**GETS \$45 IN HOTEL HOLDUP**

Two clerks in the Broadway Hotel, East St. Louis, were held up at 8:30 p.m. yesterday by a man who forced them into a room, took \$45 and walked away after taking \$45 from the cash register and smashing the telephone.

Carl E. Millard, filling station attendant for the Standard Oil Co., was robbed of \$11 last night in his station at Eleventh and State streets.

**GRAND NATIONAL BANK SUED BY LIFE INSURANCE COMPANY**

Wrongful Charging of Note to Account of Plaintiff Charged in Action for \$7500.

Suit was filed in Circuit Court yesterday by the newly reorganized Mississippi Valley Life Insurance Co. against the Grand National Bank for \$7518. Part of the suit is for \$5000 damages based on the alleged wrongful action of the bank in charging plaintiff's account with a promissory note for \$2500. It also sought to recover on the account with interest.

According to the petition, on Sept. 2, 1931, Thomas J. McCann, then vice president and a director of the insurance company, pur-

posed to deliver the company's note for \$2500 payable to Charles G. Revelle, securing it with a mortgage owned by the company. It is alleged that McCann had no authority to make this transaction and that no consideration passed

to the company from Revelle.

It appears Revelle pledged the note and other collateral with defendant bank for the purpose of securing an indebtedness. The note became a charge against plaintiff's account.

rope to the company from Revelle.

GUAYAQUIL, Ecuador, Feb. 5—Troops who revolted in the areas of Tulcan are thought to have fled across the Colombian border, the Government announced today. They were pursued by cavalry.

CHARGES DOCTORS  
BOOTLEG 90 PCT.  
OF PRESCRIPTIONSDr. Arthur Dean Bevan of  
University of Chicago  
Makes Accusation Before  
Senate Committee.ASSERTS MANY SELL  
THEIR ENTIRE QUOTAIn This Way They Can  
Make \$1200 a Year and  
Many Need Money He In-  
timated.

By the Associated Press.

WASHINGTON, Feb. 3.—Dr. Arthur Dean Bevan of the University of Chicago testified before a Senate committee today that 90 per cent of liquor prescriptions issued by doctors in the country are "bootleg prescriptions."

A large number of doctors have not been able to resist the temptation of selling prescriptions, some selling the whole quota of 400 a year," he said.

"It makes it possible for a doctor to make about \$1200 a year out of these prescriptions.

"Of the 160,000 medical men in the United States, the lower half make less than \$2500 a year.

"There has been a terrific temptation to make \$1200 a year out of these prescriptions," he said.

"Bad Effects of Alcohol.

He said that of the 2000 doctors in Connecticut 93.9 per cent "take out prescription books and write prescriptions."

Dr. Bevan was opposing a bill of Senator Bingham (Rep.) of Connecticut, to legalize 4 per cent beer.

He said the only change in the attitude of the medical profession toward prohibition since its enactment was found in the issuance of "bootleg prescriptions."

Discussing the effects of alcohol on the human system, he said detrimental effects on the heart and liver had been found among beer drinkers in Germany.

Even a small amount of alcohol in the blood, he said, is sufficient to cause unsteadiness.

"It would not be wise to have a surgeon operate on you who had 1 per cent of alcohol in his system," he said, "or to ride in a train whose engineer had that much alcohol in his system."

"Alcohol is a narcotic," he said. "It should be controlled just as cigarette is controlled."

Cigarette, he said, is the only other way by which other nations could buy our goods—and that was by using the old-fashioned method of bartering or exchanging their goods for ours. Unfortunately, that is an impossibility for them because of their Government, in its wisdom, put up a tariff fence so high that they could not use this old-fashioned method of exchange of goods.

Furthermore, when our Smart-Hawley tariff law went into effect three years ago over the protest of thousands of our own business men and farmers, the foreign nations, by way of retaliation, raised high tariff fences of their own.

"By way of parenthesis, I might add that our own tariff fence increased the cost to the farmer of manufactured articles used by him on his farm and in his household, while at the same time it did not prevent foreign competition with him in many lines of agricultural products." It is a simple fact that the farmers of America have been buying in a protected market and selling it open to the competition of the whole world.

"It is time for this nation to use a little horse sense about the obligations we seek and the results of our present tariff law."

"Yes sir."

"Then the prohibition law is making our doctor's illegal?" asked Metcalf.

"I've stated the facts," Bevan answered.

He said no believe that if the legal profession "were subjected to the same temptation they would do the same thing."

The statement of Dr. Bevan, a former president of the American Medical Association, a prescription was disputed by Dr. William F. Lorenz, director of the University of Wisconsin Psychiatric Institute, who said he was "amazed at any malnigence the medical profession to that extent."

Dr. Lorenz testified that he had never seen a mental or nervous disease due to beer drinking," although he had seen such effects produced by distilled spirits.

Answering a question, he said he thought the eighteenth amendment should be repealed. "I can't see that conclusion rather late," he said, "because I thought there was a lot of merit in the prohibition effort, but I have changed my view."

At Bellevue Hospital in New York and the University of Wisconsin, psychiatric study, he said, he had observed a steady decrease in the amount of insanity due to alcoholism up to about 1921-22, and "marked increase since that time."

"I attribute that," he said, "to the tendency to drink whisky and gin and all sorts of hard liquors."

"I have seen types of mental confusion—delirium if you wish—such as I never saw in the old days when whisky, so there must be some injurious element in it."

GOV. ROOSEVELT OPPOSES  
U. S. ENTRY INTO LEAGUE;  
FAVORS TARIFF CONFERENCEGeneva Organization Is Not the One Conceived by Wilson, He Tells New York Grange  
—For Meeting With War Debtors.

By the Associated Press.

ALBANY, N. Y., Feb. 3.—Franklin D. Roosevelt, Governor of New York and candidate for the Democratic presidential nomination, in an address last night said:

The United States should not participate in the League of Nations.

European debts should not be cancelled.

An international trade conference should be called to level tariff barriers.

Gov. Roosevelt addressed a meeting of the State Grange. His pronouncement on the League followed by a few days the challenge of William Randolph Hearst that he announce his views.

As Democratic Vice Presidential candidate 12 years ago Roosevelt "worked and spoke well" of American participation in a League of Nations, conceived in the highest spirit of world friendship for the great object of preventing a return of world war. For that course I have no apology to make.

"If today I believed that the same or even similar factors entered into the argument, I would still favor America's entry into the league; and I would go so far as to seek to win over the overwhelming opposition which exists in this country today.

Wilson League.

But the League of Nations today is not the league conceived by Woodrow Wilson. It might have been, had the United States joined.

Too often through these years its major function has been, not the broad overwhelming purpose of world peace, but rather a mere meeting place for the political discussion of strictly European difficulties.

Newton D. Baker, Secretary of War in the Wilson Cabinet and mentioned for the Democratic presidential nomination, said recently he was against a League of Nations plank in the 1932 platform.

He said, however, he believed the League will and ought to join the League some day.

Text of Speech.

The text of Roosevelt's speech follows:

"The question of markets is today our most vital question. There are two outlets for our products: the first, an increase of home consumption, and the second, the sale of more of our industrial and agricultural products to other nations throughout the world."

"You, in the State of New York, whether you live on the farm or work in the factory, are personally and deeply interested in the problem, not only of finding home markets but of finding foreign markets. Volumes of technical phrases have been written and uttered, but it all comes down to this plain truth: The nations of Europe, South America and the Far East are not buying our products of factory and farm for the very good reason that they have not the means to do the buying. International cash is gold, or its equivalent, and they have not got the gold."

Discussing the effects of alcohol on the human system, he said detrimental effects on the heart and liver had been found among beer drinkers in Germany.

Even a small amount of alcohol in the blood, he said, is sufficient to cause unsteadiness.

"It would not be wise to have a surgeon operate on you who had 1 per cent of alcohol in his system," he said, "or to ride in a train whose engineer had that much alcohol in his system."

## THE POST-DISPATCH PLATFORM

I know that my retirement will make no difference in its cardinal principles; that it will always fight for progress and reform, never tolerate injustice or corruption, always fight demagogues of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news; always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

JOSEPH PULITZER.

## LETTERS FROM THE PEOPLE

Mr. Baker and the League.

THE writer has often been impressed with the logic and fairness of your editorials. But the usual dispassionate reasoning and urbanity seem to be lacking in your editorial headed "Mr. Baker and the League of Nations" in which you charge Mr. Baker and the Democratic party with playing a cowardly and callous rôle in the matter of advocating the admission of the United States into the League of Nations.

I have carefully read Mr. Baker's statement given to the press just before he sailed, and fail to see anything in it that would warrant such a castigating editorial.

On the contrary, I feel that the Post-Dispatch permitted to pass a splendid opportunity to accord Mr. Baker a little of the well-merited praise that is due him for his unfailing loyalty and devotion to the principle of world union, understanding and co-operation which underlies the principle of the League of Nations. Mr. Baker is stamp enough to know that a house divided against itself cannot stand, and that America must first be united in a desire to co-operate and enter the League of Nations before any good will come of her entrance. Any other course would be to invite mischief or possible danger.

Like the Post-Dispatch, I believe that this principle of world federation and co-operation—as yet embodied in an imperfect and embryonic form in the present League of Nations, but which can be perfected and strengthened in time—is the only grain of wheat that has come out of all the chaff of the great World War. If it should fail and perish, the war—with its stupendous cost in human sacrifice and wealth—will have been fought in vain.

Nor has the Democratic party been indifferent to this great cause. One of the greatest leaders it ever had today lies buried in the crypt of St. Albans' Cathedral. He might have been living today had he not championed so ardently and unselfishly this great principle. He was a martyr to the cause as much as any soldier on the battlefield.

Leaders of all the world—whether fathers and mothers and the world seem not yet to have learned the lesson of the necessity for world co-operation and unification in order to avoid or diminish future international strife and chaos. However, necessity is the mother of invention and, if the streams of blood shed on the battlefields of the war did not furnish enough ink to write this lesson in bold letters so that every nation and people might see and heed, in my humble opinion there will be more ink forthcoming.

JAMES CLEVELAND LONGSTREET.  
Providence, Mo.

Reaction to a Letter.

To the Editor of the Post-Dispatch:

I may interest you to know that the writer's article, "Back to the Farm," recently published in your columns, elicited over 20 favorable comments—one from U. S. Senator Capper, another from a candidate for the U. S. Senate, and others from men well known in educational and commercial circles. The courtesy of your column is greatly appreciated by one who has his name in your paper for many years. I do most heartily commend your editorial fairness, in according a hearing to those who differ from you.

LOUIS J. BROOKS.

Bouquet for Warden Albentz.

To the Editor of the Post-Dispatch:

ONE of my deer got out of the corral at my estate located at Pevely, and we did not miss it until the Deputy Game Warden, Emil Albentz, called at our place Saturday morning and stated that W. M. La Rose, at High Landing, just north of Crystal City, had caught a deer which had been chased into the river by some dogs.

I believe the public should know the efficient work that the Fish and Game Department of Missouri is doing to help in every way to increase the wild life in our State.

When Mr. La Rose caught the deer and penned it up, he immediately got in touch with S. J. Papin, who is the Deputy Sheriff in Jefferson County, residing in Crystal City. He then immediately got in touch with Mr. Albentz, who was in charge of District 25, which includes St. Louis and Jefferson counties, and Mr. Albentz spent Friday night and Saturday locating the source of the deer.

Mr. Albentz and his deputies should be highly commended for the untiring efforts they put forth, and Mr. La Rose, who is a good citizen and felt that the owner should be notified, also should be commended.

W. E. FUETTERER.

The Real Issue.

To the Editor of the Post-Dispatch:

THANK you for your clear statement of the issue in the milk controversy—the right of the farmers to engage in co-operative marketing.

I trust Pevely's damage suit against the Sanitary Producers will soon dispose of the violence factor which invariably inflames any discussion of the milk situation. Public indignation over violent tactics was natural and commendable, but it lent itself too easily to exploitation by Pevely as a smoke screen to obscure the real issue.

HELEN HAESSLER.

## THE FUTURE OF THE RAILROADS.

If it was true that the credit of the railroads had become more acute than most credit, it is also true that the railroads have received a great deal of preferential treatment. Their employees have accepted wage reductions totaling \$215,000,000 in the next year. The Interstate Commerce Commission has made available to them increases in freight rates where they can be borne by the traffic. Congress has made it possible, through the Reconstruction Finance Corporation, for them to refund their more pressing bond issues.

In addition to all this, Samuel O. Dunn, editor of the Railway Age, thinks the railroads will continue in distress until there is a marked abatement of state and Federal regulation. He says a revival of their credit is essential so they can sell securities, both for refunding bonds now outstanding and for raising capital required for improvements. While granting that the carriers have been greatly damaged by competition, he thinks the plight of the roads arises primarily from failure to give them increased rates when the carriers could have used them. Mr. Dunn says:

The most important reason for the chronic failure of the railroads since the Transportation Act was passed to earn the return assured them by law has been the way in which rates have been regulated by the Interstate Commerce Commission. It has refused to allow the railroads to meet competition of coastwise steamships by adjusting rates as they were allowed to adjust them before the Transportation Act was passed. It has ordered readjustments of class rates, which, by reducing them for long hauls, deprive the railroads of earnings which by maintaining them for short hauls make it difficult or impossible to meet truck competition. It made a general 10 per cent reduction of freight rates in 1922, and refused a general advance of 5 per cent to the Western carriers in 1926. Its decisions in these two cases in 1922 and 1926 alone are far more than sufficient to account for the failure of the railroads to earn an average of 5½ per cent on the commission's own basis of valuation.

The commission realizes that much of the regulation imposed upon the carriers in the past has been rendered impracticable by changing conditions. The reacquisition clause of the Transportation Act of 1920 affords an excellent illustration. It undertook to distribute excess earnings of the stronger roads among the weaker lines, thus insuring all railroad service. This was what the famous St. Louis & O'Fallon case was about. The road resorted to the excessive valuations permitted by decisions of the United States Supreme Court, and when the battle was over it was not really earning anything in excess of the 5½ per cent to which it was limited by the Transportation Act.

The real trouble of the railroads has not been touched upon in any of these remedial measures. Like most American business, many of them are grossly overcapitalized. Almost none of those which have not been exploited by financiers is in such bad shape. They have suffered no worse than all business has suffered in the depression. Only the closest solidarity in the brotherhoods could have induced employees of roads like the Atchison and the Pennsylvania to take a pay cut with the craft. Senator Couzens of Michigan thinks the railroad industry will be forced in the end to write down its investment in equipment by 10 billion dollars, and that it will never again earn a return on the 25 billion dollars at which it values its property. There lies the nub of the matter. Do what it will, the country cannot guarantee the carriers earnings on their excessive valuations. They have been the playthings of high finance from the time of Daniel Drew, but that era has closed. The railroads are indispensable, and they will have to be reorganized upon an economic basis which will content itself with a reasonable profit upon investment.

Almost none of those which have not been exploited by financiers is in such bad shape. They have suffered no worse than all business has suffered in the depression. Only the closest solidarity in the brotherhoods could have induced employees of roads like the Atchison and the Pennsylvania to take a pay cut with the craft. Senator Couzens of Michigan thinks the railroad industry will be forced in the end to write down its investment in equipment by 10 billion dollars, and that it will never again earn a return on the 25 billion dollars at which it values its property. There lies the nub of the matter. Do what it will, the country cannot guarantee the carriers earnings on their excessive valuations. They have been the playthings of high finance from the time of Daniel Drew, but that era has closed. The railroads are indispensable, and they will have to be reorganized upon an economic basis which will content itself with a reasonable profit upon investment.

The real trouble of the railroads has not been touched upon in any of these remedial measures. Like most American business, many of them are grossly overcapitalized. Almost none of those which have not been exploited by financiers is in such bad shape. They have suffered no worse than all business has suffered in the depression. SHAKSPERE THEATER  
MEMORIAL OPEN SOON

Will Be Ready April 23 in Stratford-Upon-Avon — Many Modern Devices.

By the Associated Press.  
STRATFORD-UPON-AVON, Feb. 3.—The Shakespeare Memorial Theater will open here next April 23, equipped with more modern gadgets for play producing and the comfort of players and audience than Shakespeare ever dreamed.

The opening play has not yet been selected, since it is possible that King George may come to Stratford for the day, and if not, probably some other member of the royal family, selection of the play depends on the King's attendance.

The new theater was designed by Elizabeth Scott, a British architect, and cost just under \$1,000,000. It is a dull red brick, trimmed in dull green, with no attempt at the Tudor style of Shakespeare's day, and blends into the landscape.

The brim-full Avon runs past its very edge, and down past the garden. The traditional swans dignify the stream, and across it a line of trees border a meadow which runs over the hill.

## Seats for 1000 Persons.

The theater seats about 1000, and was designed first for comfort. Backstage there are modern dressing rooms, with private baths for the principals and showers for the lesser lights.

The stage is designed for quick scene changes. A rolling stage—really three stages—enables a scene to be set while the one ahead is being played, and then quickly rolled into place.

Out in front is plenty of leg-room and comfortable seats. The decoration is plain, without severity, and the foyers large enough to accommodate the audience, a condition made possible by the low ground rental, so to speak.

The theater has its bar, and two dining rooms.

"We want to make playgoing as comfortable as possible," explains Bridges Adams, the director of the theater, coming from American friends and the company makes an extensive tour of the United States and Canada every winter.

The theater is Stratford's crowning honor in memory of "that Shakespeare boy." His birthplace, somewhat restored, is carefully set as a national monument, and Anne Hathaway's cottage, with the dark and narrow fire bench where Shakespeare did his courting, stands very much as it did 350 years ago. Nearly 100,000 persons visited it last year.

## PUBLIC MEETINGS AND ENTERTAINMENTS

Jules H. Field, Mayor Miller's secretary, will address the Sandwich Forum at noon tomorrow at the downtown Y. M. C. A. on "Happenings in the Mayor's Office."

Gov. Caulfield has been invited to speak at meeting of the St. Louis Coal Club at 7:30 p. m. Saturday at Hotel Jefferson.

Gottfried Galston, concert pianist, will discuss the week-end program of the St. Louis Symphony Orchestra, in a lecture at 11:30 a. m. Friday at the Park Plaza Hotel. He and Mrs. Harriet Husted Stuart will play Beethoven's C-Major Symphony.

Charles J. Krieger of the department of astronomy of St. Louis University will speak on "The Distance of the Stars" tomorrow night at 8 o'clock at a meeting of the Engineers' Club, 4359 Lindell boulevard.

Water colors, wood block prints and book illustrations by Rachelle and Cantinelli, a young Venetian artist, are on exhibition in the Art Department of Public Library. The display will remain until Feb. 15.

The Human Society of Missouri will hold a benefit for the night of Feb. 27 at Forest Park Hotel. Proceeds will be used to assist in financing the work at its shelter.

Lillian Koch, president of Community College of Mana, Ark., will speak on "A Worker's Culture in America" before the Social Science Club of Washington University tomorrow at 8 p. m. in the Women's building.

Dean Wiley B. Rutledge of the School of Law and Dr. John Paul Nat, head of the department of psychology, will speak before the Washington University chapter of the American Association of University Professors at the university Friday evening.

## Steamship Movements.

By the Associated Press.  
Arrived.  
New York, Feb. 2. Aquitania, Southampton.  
Palermo, Feb. 2. Conte Biancamano, New York.  
New York, Feb. 2. President Harrison, Manila.

## BLONDE, A PERFECT 34, WINS 'AMERICAN BEAUTY' CONTEST

She Is Mabel Ellis, an Orphan Who Went to New York From Birmingham.

By the Associated Press.  
NEW YORK, Feb. 3.—The winner of this year's American Beauty Congress contest is Mabel Ellis, an orphan who came to New York from Birmingham, Ala., three years ago. She is five feet and one-half an inch tall, weighs 118 pounds and measures 34 inches around the bust and hips, and 26 inches around the waist. She is a blonde with brown eyes.

Ten of the 15 who competed in the finals last night were blondes. One was a redhead, one had gray hair, one was a brunette and two had brown hair. Blue eyes predominated.

The opening play has not yet been selected, since it is possible that King George may come to Stratford for the day, and if not, probably some other member of the royal family, selection of the play depends on the King's attendance.

The new theater was designed by Elizabeth Scott, a British architect, and cost just under \$1,000,000. It is a dull red brick, trimmed in dull green, with no attempt at the Tudor style of Shakespeare's day, and blends into the landscape.

The brim-full Avon runs past its very edge, and down past the garden.

The traditional swans dignify the stream, and across it a line of trees border a meadow which runs over the hill.

## BOY SCOUT GOING TO MISPAH

## Will Join Expedition Making Excavations in Palestine.

By the Associated Press.

NEW YORK, Feb. 3.—A 19-year-old boy Scout is scheduled to sail aboard the liner Hamburg tonight to join the Tel-En-Nasaph expedition, now making excavations at Misnah, Palestine.

He is Sterling Gorrell of Berkeley, Calif., a student of the University of California. Gorrell was recommended to William F. Bade, director of the expedition, after he had done outstanding archeological work in a Boy Scout expedition in the Western national park two years ago.

Miss Harriet Senter, daughter of Mr. and Mrs. Le Grand Jones, The Rev. John F. Moreland, former presiding elder of the Missouri Conference of A. M. E. Zion churches, has been appointed pastor of Metropolitan A. M. E. Zion Church, Garrison and Lucas avenues. He succeeds the Rev. H. Jackson, who died last month. The Rev. Mr. Moreland is a graduate of Livingstone College, North Carolina, and took post-graduate work at the University of Washington. The Metropolitan church is the largest Negro church in St. Louis with a congregation of about 4200.

The Rev. John F. Moreland, former presiding elder of the Missouri Conference of A. M. E. Zion churches, has been appointed pastor of Metropolitan A. M. E. Zion Church, Garrison and Lucas avenues. # STOCKS SHOW BETTER TONE LATE AFTER A DECLINE

Market Sags During Most of Session but Losses Are Largely Regained — Several Issues Up — Trade Volume Small.

WHAT STOCK MARKET DID, Wed. Tues.

Number of advances 159 150

Number of declines 231 265

Stocks unchanged 146 141

Total issues traded 536 556

The Associated Press.

NEW YORK, Feb. 3.—The stock market developed modest firmness in the late trading today, after yesterday's sagging during most of the day. Losses were largely regained, and several issues closed a point or two higher. The turnover, however,

was barely a million shares.

U. S. Steel and Radio were right in the last hour. Steel was up 1 1/2 points to 146.

Radio was up 1. Dividends on Radio

and A's due tomorrow.

General Motors, which a dividend increase was expected after the close, moved up a minor fraction.

Uncertainty as to the General

Motors dividend tended to restrain

trading and apparently prompted

the short covering, on the theory

that the announcement might be

immediately bullish. There was a

substantial premium on steel in

the crowd, which presumably

prompted covering in that issue.

Various issues closing a point or

higher included American Can,

## WHEAT MARKET CLOSES HIGHER; CORN IS DOWN

ST. LOUIS MERCHANTS' EX-  
CHANGE, Feb. 3.—Wheat closed  
3¢ to 4¢ higher today, following  
an irregular market. Estimate of  
1,500,000 bushels of North Ameri-  
can wheat having been sold for  
export and a Kansas report of 8  
bushels zero at one point were  
factors. Corn closed 4¢ to 5¢ lower.

Liverpool wheat came 5¢ to 1¢  
higher in one case. The close was  
5¢ to 4¢ net higher.

Winnipeg closed 5¢ to 1¢ net higher.

May wheat opened at 57¢ c. July  
wheat 57¢ 55¢. May corn 29¢ 45¢.  
July corn 41¢ 54¢.

Local wheat receipts, which were 29,400  
bushels a week ago, included 15,200  
and 77,000 a year ago. Included 15,  
000 bushels and 16,000 a year ago.  
Corn receipts, which were 15,000 bushels  
a week ago and 50,400 a year ago.  
Winnipeg wheat receipts, which were 6600  
bushels, compared with 11,000 a week ago and 85,000  
a year ago. Corn receipts, which were 34,  
000 a week ago and 55,000 a year ago.

Sale of corn grain made on the floor  
of the Exchange were as follows:  
No. 1 red winter, 58 1/2¢; No. 2 red winter,  
57 1/2¢; No. 3 red winter, 57¢.

CORN.—No. 3 yellow, 50¢; No. 4 yellow,  
34¢ c. c.; No. 2 yellow, 48¢.

No. 2 mixed, 24¢; No. 2 oats, 25¢.

CHICAGO WHEAT CLOSES  
HIGHER WITH CORN DOWN

By the Associated Press.  
CHICAGO, Feb. 3.—Kansas reports of  
temperatures 8 below zero did much to  
bring about late rallies in wheat prices.

Decided improvement of North Ameri-  
can wheat export demand was evident.  
Estimates were current that 1,500,000  
bushels would be required for export  
this month for shipment overseas.

Winnipeg closed 5¢ to 1¢ above  
year-to-date norms, 58 1/2¢ to 59 1/2¢.  
Oats unchanged to 4¢ off and provisions  
at 4¢.

Brain values took a new uprising early  
in the day, responding to advice from the Far  
East.

Word of another cold wave affecting  
the Midwest and the Great Lakes caused  
to hit prices. Opening 58 1/2¢ to 59 1/2¢, higher,  
when afterward rose further. Corn, 50¢  
each, and oats, 24¢, were the main items  
held near the initial limits.

Local wheat and Liverpool wheat  
quotations added momentum to the rising  
prices of wheat, with further large purchases  
of flour in Great Britain was reported.

Winnipeg corn, 58 1/2¢ to 59 1/2¢, was  
subjected to the main proposals of the United  
States and other powers. The fresh rise  
in wheat was reflected in the market.

fair amount of export business in  
North American wheat was indicated. Corn  
and oats sympathized with wheat strength.

Provisions ruled easy, influenced  
by currents in hog values.

### FUTURE GRAIN PRICES

ST. LOUIS MERCHANTS' EXCHANGE,  
Feb. 3.—Wheat futures, to be delivered  
in March, were closed in local markets,

quarterly dividend of 50 cents a share on  
the common stock, payable to stockholders  
on record at the close of business  
Feb. 15.

## NEW YORK BOND MARKET

By the Associated Press.

NEW YORK, Feb. 3.—Total bond sales on the New York Stock  
Exchange today were \$10,453,000, compared with \$10,282,000 yester-  
day. \$8,864,000 a week ago and \$11,000,000 a year ago. Total sales  
from Jan. 1 to date were \$24,841,000 compared with \$287,697,000 a  
year ago and \$25,571,000 a month ago.

Quotations on Liberty Bonds are in dollars and thirty-seconds  
of a dollar. That is, for instance, a sale printed 99 24 means \$99 and  
24 thirty-seconds of a dollar, and not \$99.24.

Following is a complete list of bonds traded in, giving sales  
highest, lowest and closing prices. In sales, 000 omitted:

DADDY OF ALL AUTO DRIVERS

Thomas Gordon, 102 years old, of Grand Rapids, Mich., recently passed test for license to drive motor car. He has never had an accident.

GOV. ROOSEVELT'S  
50TH BIRTHDAY  
PARTY.

Surrounded by his family and away from political atmosphere for a day, Franklin D. Roosevelt, New York's Governor and presidential aspirant, spent his fiftieth birthday at his home at Hyde Park, N. Y., Jan. 30. Left to right, standing: Elliot Roosevelt, son; Mrs. Elliot Roosevelt; James Roosevelt, another son; Mrs. James Roosevelt; Mrs. Curtis Dall, daughter; Curtis Dall and Mrs. Franklin D. Roosevelt. Front row: Mrs. Sara Delano Roosevelt, mother, and Gov. Roosevelt.

## If you ask my opinion

by Martha Carr

MY DEAR MRS. CARR: A year ago I was going out with a young man who seemed everything that one could want. He had a good position, a good family, a car, was dressed well and took me to nice places. His treatment of me was above reproach. We spoke of marriage but as something remote, since we were both too young. After six months he started running with the wrong kind, lost his position, his car and his self-esteem. We split up over a girl. Had it been only an affair with the other girl, my story would be different. But he married her. I have met him again recently and he has left his wife. He now admits his mistake though he was silent before. He wants to start again, though his family has lost faith. I want desperately to believe in him and help him, though I do not believe in keeping anyone down if they want to rise again. I find I still care for him a great deal, but don't want to show him how much, as I am afraid he will become over-confident.

He can't find a job. How can I go about helping him, and still keep pride?

WILDERED.

You wish to exert yourself to compel him to keep your associations on a strictly friendship basis, you may be able to do something for him. But, as a matter of fact, he probably has had too much help, both from his family and you. You will convince him that his salvation will depend more upon his own determination, good sportsmanship, energy and pride, than anything else or anybody else, you will do more for him than all your other efforts put together. There is hardly any remedy for untruthfulness.

DEAR MRS. CARR: I am a widow and music teacher, but I feel as if I must add to my income, as, of course, in these times my scholars have dropped off. I should like to get a position to model older women's clothes. Let me hear from you. ANXIOUS.

There are departments in the shops which specialize in mature women's clothes. All you can do is make the rounds and see if they need a model for that kind of clothes.

MY DEAR MRS. CARR: Although the boy I go with is not cheap, in fact he is rather extravagant about gifts and everything else he does for me, when it comes to a place to go and eat, he always picks out some inexpensive cheap little restaurant. I am getting tired of winding my legs around drug store stools when I am dressed in a low-backed formal.

M. B.

I do not blame you. The idea seems inconsistent, to say the least. Better not go out often to the whole thing right. Next time you have the invitation (after the dance) to "wind up" at the drug store, look a little bored and abstracted and do not answer at once, perhaps he may take the hint and quickly suggest another place before the silence becomes too embarrassing.

DEAR MRS. CARR: Some time ago my son's father stole a quite a bit of money. He made the best amends he could. But will this lesson be enough for his son, or will he be, inclined to steal?

They haven't any idea that I know about it. Do you think he should tell me or should I try to forget?

AWAITING.

It does not necessarily follow that the son of such a father would steal, but it is a poor example. I think the boy should tell you if he is thinking of marrying you, and let you decide whether or not you could overlook the reflection upon the family.

DEAR MRS. CARR: Do you think it becoming in a married man or woman to say "Yes" or "No, dear" to clerks in stores or to people in the homes of friends? My husband always manages to do that. I have just one store just on that account, only to hear it repeated at others. If that were all, it wouldn't matter so much, but the people in this store have been such good friends to me that I hate to stop trading with them. However, I don't like to be made a laughing stock, and I love my husband too much to want him to be ridiculous. I know I am not bad looking and I want my husband to be friendly, but digested.

DISCOURAGED LIKE MANY OTHERS.

The use of terms of endearment even in the most casual way in a business place, either by men to women or women to women is the poorest of taste. The "honeys" and "dearies" sometimes bestowed by the clerks and again by customers gets to be an irritation and a bore. For men to smirk and

Letters intended for this column must be addressed to Martha Carr at the St. Louis Post-Dispatch. Mrs. Carr will answer all questions of general interest but, of course, cannot give advice on matters of a purely legal or medical nature. Those who do not care to have their letters published may enclose an addressed and stamped envelope for a personal reply.

## Alien Actors Dominate Field

HOLLYWOOD isn't much concerned because Congressman Samuel Dickstein seeks a law to bar foreign actors, but it is speculating on what the film capital would have done if alien talents had been banned from the country a few years ago. For one thing, the nation's movie fans would have missed Pola Negri (left), Greta Garbo (right) and Marlene Dietrich (above) because they are foreign-born, along with a host of other outstanding stars.

HOLLYWOOD, Feb. 2.—A law was enacted barring foreign players from the United States, a surprisingly large number of the biggest stars of Hollywood would join the unemployed army.

Law to Bar Them Would

Wreck Ranks of

Stars.

Movie celebrities who are crossing the screens every day in every to establish geographical boundaries affecting it amused Hollywood, and especially its huge foreign contingent.

Few of the many foreign players here regard Dickstein's exclusion bill a matter to lose sleep over.

One George Arliss, a British subject, came to the defense of his fellow-workers from his own and other lands.

Calling attention to the large number of pictures which have to be produced here every year, Arliss said he thought it would be a mistake to exclude all alien talent, and here's his reasons for so believing:

"Although an experienced playwright," Arliss said, "is credited with writing 'the plays of the year,' there are not enough good plays here to sustain a good story invented, to supply the demands and producers frequently have to fall back on the stars to raise inferior material to commercial success."

"Hollywood needs more stars than the United States can supply, and the producers have to look abroad. . . . I trust Mr. Dickstein will remember that one imported star will create work for hundreds of domestic supporters who might otherwise be without work."

"This is apart from the thought,"

Arliss continued, "that possibly without new blood from abroad we might sink into a rut that would result in stagnation."

"Hollywood supplies the universe. It should be allowed to draw from the universe."

Hollywood has been drawing from the universe, almost every country of it.

England has the largest representation. In addition to Clark Gable, Colman, Arliss, Miss Mackall and Laurel, others include Reginald Denny, Claude Allister, Clive Brook, David and Ernest Torrence, Ralph Forbes, Leslie Howard, John Loder, Montagu Love, Victor McLaglen, Elsie Landi, Allison Skipworth, Colin Clive and Boris Karloff.

Mexicans in the movies include Miss Del Rio, Miss Velez, Jose Mojica, Raquel Torres, Novarro and Lupe Velez.

There are several hundred others, prominent and otherwise, among the actors, directors, writers and executives who were born outside the United States.

The bill concerning actors, given to the House Immigration Committee for consideration, originally provided for exclusion of foreign musical artists. Representative Dickstein of New York, committee chairman, sponsored the amendment extending that ban to foreign stars.

Because the business of entertainment always has been international, the thought of attempting

"Although an experienced playwright," Arliss said, "is credited with writing 'the plays of the year,' there are not enough good plays here to sustain a good story invented, to supply the demands and producers frequently have to fall back on the stars to raise inferior material to commercial success."

"Hollywood needs more stars than the United States can supply, and the producers have to look abroad. . . . I trust Mr. Dickstein will remember that one imported star will create work for hundreds of domestic supporters who might otherwise be without work."

"This is apart from the thought,"

smile and try to "make a killing" man a performance as any man can be guilty of. A married man whose wife is obliged to be a witness to this vanity, should be ridiculed out of the habit or subject to a small but effective piece of the mind.

MY DEAR MRS. CARR: My mother objects to my going out and staying until 2:30 a.m. I am 16 years old; do you think I am too young? SALLY.

Most decidedly, I do. If you are not careful that sort of thing at your age, will affect your health seriously.

DEAR MRS. CARR: Could you tell me of a liquid that is colorless and odorless that I would be able to use to keep me from biting my nails? I would most anything to break myself of this habit.

DEAR MRS. CARR: I am undecided about the color of an overcoat. Would black be right for a fellow 18 years old? I would like to know your opinion on the proper color and style. T. D. O.

If you want the coat for dress wear, the black would be right at least a dark one. But for daily wear, a mixture brown or gray, would be better for a young man.

DEAR MRS. CARR: I am an old woman, but come to you for advice. My daughter's husband gets twice the wages he tells his wife and he associates with another woman. He is mean to his wife and children. She loves him and believes everything he tells her. Shall I tell her? L. M.

Perhaps it is best to believe in this case that "where ignorance is bliss, 'tis folly to be wise." I am afraid it would only make trouble for you.

Add a little ammonia when water. It will help tremendously.

## French Women Organize

Adopt New Methods in  
Attempt to Win  
Right to Vote.

PARIS, Feb. 2.

ONE HUNDRED THOUSAND women of France have begun a new drive for suffrage with a system of "persuasion" designed to break down the last vestige of opposition in the Senate.

The tip comes from Helen Twelvetrees, who sought refuge from the tribe of unbidden callers by moving to Brentwood, where she and her husband now have a new home, far enough away from the dropping-in itinerary to assure them peace and quiet.

The Hollywood "dropper-in" is a survivor of the old easy-going Hollywood life before talking and eccentricity came about. The movie artists on a fairly exacting schedule and routine of real working people.

The "dropper-in"—he's a type rather than an individual—comes once, on casual acquaintance, and if received civilly, returns next time with three or four friends. Each of these friends, of course, automatically becomes a potential "dropper-in" and another link in an ever-growing circle of nuisances.

RECENTLY the duchess presided at a meeting stressing the "advantage to France of the feminine vote" and not long ago she made a plea to the feminist group of Sen. George W. Norris.

"We do not stand for extreme ideas," she told the Associated Press. "But we feel that we have the right to the vote and we believe that, when we have gained it, we can do much to improve our country."

The improvement of sanitary conditions in municipal and country communities, the protection of motherhood and the property rights of women, the regulation of conditions of work, which women would find the improvement of educational facilities in which women are actively interested. Through their vote they should be able to contribute much to the betterment of the country they love."

DAILY STORY  
FOR  
CHILDREN  
By Mary Graham Bonner

## A New Game

EGGY and John were back after their adventures and Peggy was telling John that she knew some poems so well that she could say them backwards in her sleep. John said he felt he could almost do the same.

"I mean," Peggy added, "I know some verses so very well that even when I'm half asleep and not thinking about them I can recite them."

"That's it," agreed John. "We certainly wouldn't forget them when we're awake if we could say them backwards in our sleep. But let's try, while we're wide awake."

"Try what?" Peggy asked.

"Let's each choose a poem that won't be so easy. 'Saying it backwards when asleep is just an excuse,'" John said.

"Oh, my," said Peggy. "That's what I meant. 'Saying it backwards when asleep is just an excuse,'" John said.

"Well, Ash, if circumstances come up we can't help but be awake when we're wide awake."

"Lucky for him; Haw! Haw!"

Preston rose to loom darkly, menacingly over his son.

"You can't murder him in his sleep, or shoot him in the back. That's look bad in Wagontown. I'd just about ruin us. An' if you call him to an' an' break his heart, Ash, he'll kill you! Savvy?"

You were caught to be keen enough to see it. Rock is cold as ice, as quick as lightning. He has a hawk's eye.

However, she agreed to try him, and she chose "Humpy-Dumpty" for her poem.

She had to stop a good many times, and she had to say it over the right way to herself every once while making it go backwards, but with stops and pauses and corrections she managed to get it through it and this was the way went:

Again up Dumpty Dumpty set he couldn't.

Men King's the all and Horses King's the all.

Fall great a had Dumpty Humpy.

Wall a on sat Dumpty Humpy.

Peggy realized now that it was all she could do to say anything backwards when she was away when she had all her wits about her!

But now it was John's turn.

Shirt Cuffs and Collars Contrast

New shirts for men, featured in a New York shop, have detachable collars and starched cuffs of contrasting colors. Mostly they are beige or blue. One has white collar and cuffs with woven dots of black. They all have wide-pleated bosom fronts.

HIM had lied to deceive Ash as to her escort at the dance. Ash did not know then, but soon or later he would find out. There was more suspicion directed toward the Prestons than Rock had known. The case was growing critical. Gage Preston knew it. He wanted to avert catastrophe; but for this vicious son he not improbable could have done it. But Ash Preston dominated father and brothers. He would ride to his doom. Rock had met many of that Western type, and every single one of them had died with his boots on.

Preston had told his son that Senior Del Toro was Rock. Here Rock had an icy, leering portent—one which he had been on the verge of before—Preston wanted to force a fight between him and Ash. He knew that Rock would kill his son. There seemed no other possible interpretation. He had deliberately suggested they persuade Thiry to make Rock one of them, by fair means or foul!

In the morning Rock watched three days later miles east of the Notch. Rock's alert eye caught a sight, a rider above him on a horse, keeping behind the trees, and not saying upon him with a glass. Though boiling with rage, he went right on driving as if he were none the wiser. On the return to camp he came to the conclusion that one of Hesbitt's outfits was deliberately on the trail. This roused more than anger in Rock. The situation around Gage Preston was narrowing down critically.

A couple of days before the longed-for number of cattle had been herded into the canyon, the thing Rock expected came to pass. Early in the morning, at breakfast hour, a group of riders, in number, rode down upon the camp.

"Boys, Rock, I don't like this," said Rock, gruffly. "But you take it natural-like, and I'll do the talkin'." As the riders entered camp Rock rose from his seat beside the camp fire to greet the visitors. They were seasoned range-riders, a hard-looking quintet, none of whom Rock had ever seen. "Howdy! Just in time for grub," he said heartily.

"Much obliged, but we had ourn," replied the leader, a rugged cowboy.

"Get down and stay awhile," said Rock.

His invitation was not accepted nor acknowledged.

"Gage Preston outfit?" inquired the leader.

"Part of it," replied Rock, not so cordially.

"Round-up or drivin' a herd?" went on the interlocutor, visibly cooler.

"We're drivin' five hundred head down the Pass. Reckon another day or so will make the full count," rejoined Rock.

(Continued Tomorrow.)

(Copyright, 1932.)

ROCK repaired to his cabin and packed the things he would need.

Rock wavered between two strong desires—to see Thiry before he left or write to her. The better course would be to write, because he could put on paper what there would be no chance to speak. He sat down to his little table and began, with hands that could not keep steady and heart which accelerated a beat for every word:

"Thiry, Darling:

"Your Dad has ordered me away for several weeks, maybe more. I am glad to go, though not to see your sweet face for so long will be terrible. My conscience flays me still for what I brought upon you at the dance. But I don't ask for clemency for that so much as for what happened on Winter's porch. Still if I had no more to sustain me, Thiry, through what seems to be the hardest trial of my life, that's you gave me would be enough."

"Don't worry, Thiry, dear, about Ash or me, or whatever it is that is wrong. And it will not turn out so bad as you think, I believe that

you'll be pretty mad when he sees it's us, but before he has a chance to say much about them window panes in the school house we'll be tellin' him about the cave..."

IF WE CAN'T GET THE CONSTABLE TO GO DOWN TO THE CAVE WITH US RIGHT AWAY IT'S BETTER NOT TO TELL HIM AT ALL...

HE'S ALL THROUGH WITH HIS HAIR CUT AND HE'LL PROBABLY COME OUT AND WE'LL GET TO TALK TO HIM...

NOW HE'S THROUGH BUT HE'S SET DOWN AND STARTED TO TALK 'BOUT THE ELECTION OR SOMETHIN'.... YOU GO IN AN' TELL HIM SOMEBODY WANTS TO SEE 'IM AT HIS OFFICE BUT DON'T SAY WHO!
